Upon the receipt by the department of an application for registration of a motor vehicle accompanied by the fee required by section 7 of this Act, the department shall file such application and shall alphabetically, and also numerically, register such motor vehicle or vehicles with the name, residence and business address of the owner, together with the facts stated in such application, in a book or on index cards to be kept for the purpose under a distinctive number assigned to such motor vehicle by the said department, which book or index cards shall be open to inspection by the public during reasonable business hours. A full record of all motor vehicle registration shall be posted daily by the department upon a bulletin board so located as to be easily accessible by the public, and no information relative to any such registration shall be made public by any employee of the department in advance of such posting.

"SEC. 5. Upon the filing of such application and the payment of the fees provided in this Act, the said department shall assign to such motor vehicle a distinctive number. Such distinctive number so assigned shall be the number assigned to such motor vehicle at each succeeding registration thereof, so long as such motor vehicle shall be owned by the owner to whom the original assignment was made, and upon sale or transfer of such motor vehicle, said number may be cancelled or may be re-assigned as an original assignment to the same or to another motor vehicle, at the option of said department, subject to provisions hereinafter contained.

"SEC. 6. Such registration shall be renewed annually in the same manner and upon payment of the same fee as provided for original registration, such renewal to take effect on the first day of January of each year. The seals or discs furnished by the said department as provided hereinafter shall be valid for the calendar year only for which they are issued.

"SEC. 7. The following fees shall be paid to the department upon the registration of a vehicle in accordance with the provisions of this act and shall accompany the application hereinabove provided for:

"For the registration of every motorcycle, two dollars; for the registration of every automobile, except electric motor vehicles, the sum of forty five cents for each horsepower, or major fraction thereof, according to the formula specified in section 3 of this Act; for the registration of every motor vehicle equipped with other than pneumatic tires, and used for commercial purposes, weighing under four thousand pounds unladen, five dollars in addition to the fees provided herein for horsepower rating or for electric motor vehicles; for every such vehicle weighing four thousand pounds and over and less than six thousand pounds unladen, ten dollars in addition to the fees provided herein for horsepower rating or for electric motor vehicles; for every such vehicle, weighing six thousand pounds and over and less than ten thousand pounds unladen, fifteen dollars in addition to the fees provided herein for horsepower rating or for electric motor vehicles; for every such vehicle weighing ten thousand pounds and over unladen, twenty dollars in addition to the fees provided herein for horsepower rating or for electric motor vehicles; for the registration of every electric motor vehicle, five dollars; for the registration of motor vehicles owned by or under the control of a manufacturer of or dealer in motor vehicles, if such persons operate upon the public highways not more than five automobiles, twenty five dollars, and two dollars for every automobile in excess of five so operated, including the necessary number plates; for the registration of all the motorcycles owned by or under the control of a manufacturer of, or dealer in motorcycles who does not manufacture or deal in automobiles, five dollars; for every chauffeur's license, two dollars; for every additional number plate furnished to replace such plates as have been lost or mutilated, or which are illegible, or which may be required for use on motorcycles owned by or under the control of a manufacturer of or dealer in automobiles, one dollar; for every additional seal or disc furnished to replace such as have been lost or mutilated, or which are illegible, fifty cents.

"Anything herein to the contrary notwithstanding, if application for the registration of a motor vehicle is made during the period beginning on the first day of April and ending on the thirtieth day of June in any year, three fourths of the appropriate annual fee shall be paid; if application is made during the period beginning on the first day of July and ending on the thirtieth day of September, one-half of the annual fee; if application is made during the period beginning on the first day of October and ending on the thirty-first day of December, one-fourth of the annual fee.

"SEC. 8. Upon the transfer of ownership of any motor vehicle, its registration shall expire, and the person in whose name such vehicle is registered shall forthwith file with the department a written notice containing the date of such transfer of ownership and the name, post office address, and business address, if any, of the new owner and, upon demand, shall return the registration number plate or plates to the department.

"Any person who has transferred the ownership of any motor vehicle or who has lost possession thereof, if he applies within ten days after such transfer or loss of possession, may have assigned to another motor vehicle the registered number of the motor vehicle so transferred or lost.

"Upon the transfer of any motor vehicle by a manufacturer or dealer, whether by sale, lease or otherwise, such motor vehicle not being registered under the provisions of section 3 hereof, such manufacturer or dealer shall, within three days after such transfer, file with the department, upon a blank to be furnished by the department, a notice containing the date of such transfer and the name, post office address, and business address, if any, of the purchaser, lessee, or other transferee. A person who transfers the ownership or loses possession of, a motor vehicle registered in his name, or removes such motor vehicle from the State, shall be entitled to a rebate bearing the same proportion to the fee theretofore paid by him as the remaining undivided quarters of the calendar year bear to that portion of the year for which said fee was paid; *provided*, that any such rebate shall be paid upon a certificate filed by the department with the State Board of Control, setting forth the facts, and that the rebate shall be paid out of the motor vehicle fund. The department shall furnish without further charge, with transportation prepaid, to every person whose motor vehicle is registered as aforesaid, on original registration, one number plate for motorcycles and two number plates for other motor vehicles, the same to have displayed upon them the register number assigned to such vehicle together with the abbreviation 'Cal.' and to have space provided thereon to which may be attached each year the registration seal or disc to be furnished by the department, as hereafter provided. Said department shall furnish, with each pair of number plates or with each number plate for motorcycles, and on each renewal of registration, transportation prepaid, a registration seal or disc together with screws, or other means of attachment to the number plate, the form and character of which seal or disc shall be uniform for any one calendar year, such seal or disc to be changed as to design or color or both from year to year. Said seal or disc shall indicate the identical number shown on the number plate to which it is to be attached, and also the calendar year for which it is issued, and it shall be valid only for such year. The said number plates, as well as said seal or disc, shall be of substantial character and suitable design, to be determined by the department. If the said department shall determine at any time that for any reason a motor vehicle is unsafe or improperly equipped, or otherwise unfit to be operated, it may refuse to register such vehicle, and said department may for a like reason revoke any registration already recorded.

"SEC. 9. Every manufacturer of, or dealer in, motor vehicles may make application to the department, by mail or otherwise, upon a blank provided by the department for a general distinguishing number or symbol, instead of registering each motor vehicle owned or controlled by him, and with such application he shall deposit the proper registration fee as provided in section seven of this Act; and the said department shall grant the application if satisfied of the facts stated in the application, and shall issue to the applicant a certificate of registration containing the name and business address of the applicant and the general distinguishing number or symbol assigned to him, and made in such form and containing such further information as the said department may determine; and every motor vehicle owned or controlled by such manufacturer or dealer shall be regarded as registered under such general distinguishing number or symbol until sold or until let for hire or loaned for a period of more than ten successive days; *provided*, that whenever a manufacturer or dealer shall maintain a branch or sub-agency he shall apply for a separate registration for such branch or sub-agency and shall pay therefor the fee provided in section seven of this Act for the registration of motor vehicles owned by or under the control of a manufacturer or dealer. The said department shall furnish, transportation charges prepaid, to every manufacturer of, or dealer in, automobiles applying therefor whose vehicles are registered in accordance with the provisions of this section, five pairs of number plates of suitable design, together with the accompanying seals or discs, the plates to have displayed upon them the register number which is assigned to the motor vehicles of such manufacturer or dealer, with a different symbol on each pairs of number plates.

"SEC. 10. The provisions of this Act relative to registration and the display of registration numbers, shall not apply to a motor vehicle owned by a resident of another country or state who is only temporarily within the State of California, other than a foreign corporation doing business in California; *provided*, that the registration number plate of such other country or state shall be displayed on such motor vehicle substantially as provided in this Act for motor vehicles registered pursuant to the provisions hereof.

"SEC. 11. Except as otherwise herein provided, no person shall operate or drive a motor vehicle on the public highways unless such vehicle shall at all times have displayed, one on the front and the other on the back thereof, the number plates furnished for it as heretofore provided, together with the registration seal or disc, furnished by the department, securely attached to the number plate on the front of said vehicle in the space provided thereon for that purpose, said number plates to be securely fastened to such vehicle so as to prevent the same from swinging, at a minimum distance of sixteen inches from the ground; and no person shall attach to, or display on, such vehicle, any number plate, or registration disc or seal, assigned to it under any motor vehicle law other than this Act, or any registration seal or disc other than that assigned for the current year, or a fictitious number plate, or registration seal or disc; *provided, however*, that but one number plate with the regulation registration seal or disc shall be required upon motorcycles and that such number plate upon motorcycles shall be attached to the rear thereof. All letters, numbers, seals or discs, and other identification marks shall be kept clean and [illegible], and free from grease, dust or other blurring matter, so that they shall be plainly visible at all times during daylight and under artificial light in the night time.

"The registration fee required [illegible] paid upon a motor vehicle shall become delinquent in the case of any such motor vehicle [illegible] upon the operation of the vehicle on the public highways without the registration fee required by this Act first having been paid to the [illegible] accompanied by the application for registration provided herein. It is hereby provided, in addition to any and all other penalties provided by this Act, that if at the expiration of [illegible] days after any registration fee becomes delinquent, such fee has not been paid and registration applied for, a penalty shall be added to the amount of such fee [illegible] equal to twenty-five per cent. of the fee required by section 7 of this Act, and that such fee, together with the amount of said penalty, shall be a lien upon the motor vehicle in regard to which said registration fee is delinquent, and the department shall have power and it is hereby made its duty to collect said registration fee together with the penalty, by seizure of such motor vehicle from the owner or possessor thereof, if any, and by sale of such motor vehicle. The seizure and sale herein authorized shall be conducted and carried out by the department in the same manner as is provided by law for the seizure and sale of personal property by the county tax collector for the collection of taxes due on said personal property.

"SEC. 12. Every motor vehicle shall be equipped with a bell, gong, horn, whistle or other device in good working order, capable of emitting an abrupt sound adequate in quality and volume to give warning of the approach of such vehicle to pedestrians and to the riders or drivers of animals or of other vehicles and to persons entering or leaving street, interurban and railroad cars. Every person operating a motor vehicle shall sound said bell, gong, horn, whistle or other device whenever necessary as a warning of danger, but not at other times or for any other purpose.

"SEC. 13. (a) Every motor vehicle when in use or operation on the public highway, whether in operation or stationary, during the period from a half hour after sunset to a half hour before sunrise, and at all times when fog or other atmospheric conditions render the operation of vehicles dangerous to the traffic or such use of the highway, shall carry at the front at least two lighted lamps showing white lights visible under normal atmospheric conditions at least five hundred feet in the direction toward which said motor vehicle is faced, and shall also carry at the rear a lighted lamp exhibiting one red light plainly visible for a distance of five hundred feet toward the rear and so constructed and placed that the number plate carried on the rear of such motor vehicle shall be illuminated by a white light in such manner that the number thereon can be plainly distinguished under normal atmospheric conditions at a distance of not less than fifty feet toward the rear. At the times and under the conditions in this section hereinbefore specified, all other vehicles, except motorcycles and bicycles and such vehicles as may be propelled by a pedestrian, shall carry at the left side thereof a lighted lamp visible front and rear, and from the left, for a distance of not less than two hundred feet.

"(b) At the times and under the conditions hereinbefore specified in this section, every motorcycle or bicycle while on the public highway, whether in operation or otherwise, shall carry one lighted lamp showing a white light visible under normal atmospheric conditions at least two hundred feet in the direction toward which such motorcycle or bicycle is faced, and shall also carry at the rear of such motorcycle or bicycle, one red light, or one red reflex mirror plainly visible from the rear.

"(c) Anything hereinbefore to the contrary notwithstanding, it is hereby provided that the front light or lights of every motor vehicle shall be permanently dimmed so as to prevent any glare therefrom which would interfere with the convenience or safety of the use of the highway, or shall be so directed that the center rays thereof shall strike the ground at a distance not to exceed seventy-five feet from the front of such vehicle; provided, that nothing in this subdivision shall be construed to render inoperative the provisions of subdivision (a) of this section relative to the plain visibility of such light or lights in the direction in which such vehicle may be faced.

"SEC. 14. All motor vehicles must be provided at all times with adequate brakes kept in good working order.

"SEC. 15. Other than on vehicles actually engaged at the time in construction or repair work on roads, no tire on any motor vehicle or on any other vehicle shall have on its periphery any block, stud, cleat, wedge, bead or any other protuberance of metal which projects more than one-fourth of an inch beyond the tread or traction surface of the tire; but this section shall not be so construed as to prohibit the use of tire chains of reasonable proportions on motor vehicles when required for safety because of snow, ice, or other conditions tending to cause such vehicles to slide or skid, nor so as to prevent the use of traction engines with cleats on the driving wheels thereof on dirt or unimproved roads.

"SEC. 16. Every motor vehicle must have devices in good working order which shall be at all times in constant operation to prevent excessive or unusual noise, annoying smoke and the escape of gas, steam or oil, as well as the falling out of residue from fuel, and all exhaust pipes carrying exhaust gases from the engine shall be directed parallel to the ground or slightly upward. Devices known as "muffler cut-outs" shall not be used within the limits of any incorporated city and county or city or town or on any public highway where the territory contiguous thereto is closely built up.

"SEC. 17. No intoxicated person shall operate or drive a motor or other vehicle upon any public highway within this State.

"SEC. 18. No person shall operate a motor vehicle without the consent of the owner thereof.

"SEC. 19. No person shall employ for hire as a chauffeur of a motor vehicle any person not licensed as in this Act provided. No person shall allow a motor vehicle owned by him or under his control to be operated by any person who has no legal right to do so, or in violation of the provisions of this Act. No person having control or charge of a motor vehicle shall allow such vehicle to stand in any public street or public highway unattended without first effectively setting the brakes thereon and stopping the motor of said vehicle.

"SEC. 20. (*a*) The driver or operator of any vehicle in or upon any public highway shall drive or operate such vehicle in a careful manner with due regard for the safety and convenience of pedestrians and of all other vehicles or traffic upon such highway, and wherever practicable shall travel on the right hand side of such highway. Two vehicles which are passing each other in opposite directions shall have the right of way, and no other vehicle to the rear of either of such two vehicles shall pass or attempt to pass such two vehicles. On all occasions the driver or operator of any vehicle in or upon any public highway shall travel upon the right half of such highway unless the road ahead on the left hand side is clear and unobstructed for at least one hundred yards ahead and in all cases while crossing an intersecting highway. For the purposes of this section and its subdivisions, the term 'vehicle' shall also include every draft or riding animal, whether ridden or led, excepting that an animal or animals attached to any conveyances shall, with such conveyance, constitute one vehicle.

"(*b*) Vehicles proceeding in opposite directions shall pass each other to the right, each giving to the other one-half the road as nearly as possible.

"(*c*) Vehicles overtaking other vehicles proceeding in the same direction shall pass to the left thereof and shall not again drive to the right until reasonably clear of such overtaken vehicle.

"(*d*) It shall be the duty of the driver, rider or operator of a vehicle about to be overtaken and passed to give way to the right in favor of the overtaking vehicle, on suitable and audible signal being given by or on behalf of the operator, driver or other person in charge and control of such overtaking vehicle if such overtaking vehicle be a motor vehicle.

"(*e*) Excepting where controlled by such traffic ordinances or regulations enacted by local authorities as are permitted under this Act the operator of a vehicle approaching an intersection of the public highway shall yield the right of way to a vehicle approaching such intersection from the right of such first-named vehicle.

"(*f*) It shall be the duty of the person operating or in charge of an overtaking vehicle to sound audible and suitable signal before passing a vehicle proceeding in the same direction.

"(*g*) All vehicles approaching an intersection of a public highway, with the intention of turning thereat shall in turning to the right keep to the right of the center of such intersection, and in turning to the left shall run beyond the center of such intersection, passing to the right thereof, before turning such vehicle toward the left.

"(*h*) In all passing and overtaking such assistance shall be given by the occupants of each vehicle respectively to the other as the circumstances shall reasonably demand in order to obtain clearance and avoid accidents; every person having control or charge of any motor vehicle or other vehicle upon any public highway and approaching any vehicle drawn by a horse or horses, or any horse upon which any person is riding, shall operate, manage and control such motor vehicle or other vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses and to insure the safety and protection of any person riding or driving the same; and if such horse or horses appear frightened the person in control of such motor vehicle or other vehicle shall reduce its speed, and if requested by signal or otherwise by the driver or rider of such horse or horses shall not proceed further toward such animal or animals unless such movement be necessary to avoid accident or injury until such animal or animals be under the control of the driver or rider thereof.

"(*i*) The person in control of any vehicle moving slowly along and upon any public highway shall keep such vehicle as closely as practicable to the right-hand boundary of the highway, allowing more swiftly-moving vehicles reasonably free passage to the left.

"(*j*) The person in charge of any vehicle in or upon any public highway, before turning, stopping, or changing the course of such vehicle, and before turning such vehicle when starting the same, shall see first that there is sufficient space for such movement to be made in safety, and if the movement or operation of other vehicles may reasonably be affected by such turning, stopping or changing of course, shall give plainly visible or audible signal to the persons operating, driving or in charge of such vehicles of his intention so to turn, stop, or change his course.

"(*k*) In passing any railroad, interurban or street car while passengers are alighting from or boarding same, vehicles shall be operated with due care and caution, so that the safety of such passengers shall be protected, and for that purpose said vehicle shall be brought to a full stop if reasonably necessary to attain the objects of this subdivision.

"(*l*) Every motor vehicle when moving in defiles, canyons, or mountain passes where the curvature of the road or highway prevents a clear view for a distance of one hundred yards shall be held under control and not permitted to coast and the operator thereof in approaching curves shall give a warning by the gong or other adequate signaling device.

"(*m*) Police patrol wagons, police ambulances, fire patrols, fire engines and fire apparatus in all cases while being operated as such, shall have right of way with due regard to the safety of the public; but this provision shall not protect the driver or operator of any such vehicle or his employer or principal from the consequences of the arbitrary exercise of this right or for injuries wilfully inflicted

"SEC. 21. Whenever an automobile, motorcycle or other motor vehicle or any vehicle whatsoever, regardless of the power by which the same may be propelled or drawn, strikes any person, or collides with any vehicle containing a person, the driver of, and all persons in, such automobile, motorcycle or other motor vehicle or other vehicle, who have or assume authority over such driver, shall immediately cause such automobile, motorcycle or other motor vehicle, or other vehicle, to stop and shall render to the person struck, or to the occupants of the vehicle collided with, all necessary assistance including the carrying of such person or occupant to a physician or surgeon for medical or surgical treatment, if such treatment be required, or if such carrying is requested by the person struck or any occupant of the vehicle struck; and such driver, and person having or assuming authority over such driver, shall further give to the occupants of such vehicle or person struck, the number of such automobile, motorcycle or other motor vehicle, or other vehicle, also the name of the owner thereof and the names of the occupants or passengers not exceeding five in each automobile, motorcycle or other motor vehicle, or other vehicle, at the time of such striking or collision. Any person violating any of the provisions of this section is punishable by imprisonment in the State prison not exceeding ten years, or in the county jail not exceeding one year, or by fine not exceeding five thousand dollars, or by both such fine and imprisonment

"SEC. 22. (*a*) No races or contests for speed, whether on a bet or wager or otherwise, shall be held upon any public highway within this State without the permission of the proper authorities of the State, county, city and county, city or town, having jurisdiction over such portion of the highway as is intended to be used for such race or contest, and unless such highway is fully and efficiently patrolled for the entire distance over which such race or contest for speed is to be held.

"(*b*) Every person operating or driving a motor or other vehicle on the public highways of this State shall operate or drive the same in a careful and prudent manner and at a rate of speed not greater than is reasonable and proper, having regard to the traffic and use of the highway, and no person shall operate or drive a motor or other vehicle on a public highway at such rate of speed as to endanger the life or limb of any person or the safety of any property; provided, that it shall be unlawful to drive at a rate of speed in excess of thirty miles an hour; and *provided, further*, that in any event no person shall operate or drive a motor or other vehicle on any public highway where the territory contiguous thereto is closely built up, at a greater rate of speed than twenty miles an hour, or in the business district of any incorporated city and county, city or town, at a greater rate than fifteen miles an hour, or at a greater rate of speed than ten miles an hour where the operator's or chauffeur's view of the road traffic is obstructed either upon approaching an intersecting way, or in traversing a crossing or intersection of ways, or in approaching or traversing a crossing or intersection of ways, or in approaching or traversing a bridge, dam, trestle, causeway or viaduct, or in going around corners or a curve in a street or highway.

"(*c*) In the case of any person arrested for violation of the provisions of this section, unless such person shall demand that he be taken forthwith before the most accessible magistrate, the arresting officer shall take the name and address of such person and the number of his motor vehicle and notify him in writing to appear before a designated magistrate at a time and place to be specified in such writing at least five days subsequent to the date of such notice and upon the promise in writing of such person to appear at such time and place, such officer shall forthwith release him from custody. Any person wilfully violating such promise shall be guilty of a misdemeanor regardless of the disposition of the charge upon which he was originally arrested.

"(*d*) Limitations as to rate of speed herein fixed shall be exclusive of all other limitations fixed by any law of this State, or of any political subdivision thereof, and local authorities shall have no power to pass, enforce or maintain any ordinance, rule or regulation in any way in conflict with, contrary to or inconsistent with the provisions of this Act, and no such ordinance, rule or regulation of said local authorities now in force or hereafter enacted shall have any force or effect, excepting, however, that (1) such powers as are now or may hereafter be vested in local authorities to enact ordinances and regulations, applicable equally and generally to all vehicles and other users of the highways, and providing for traffic or crossing officers or semaphores, to bring about the orderly passage of vehicles and other users of the public highways or certain portions thereof, where the traffic is heavy and continuous, as well as (2) the powers now or hereafter vested in local authorities to license and to regulate the operation of vehicles offered to the public for hire, and to regulate the use of the highways for processions or assemblages, shall remain in full force and effect, and all ordinances, rules and regulations which may have been or which may be hereafter enacted in pursuance of such powers, shall remain in full force and effect; *provided, further*, that local authorities may set aside for a given time a specified public highway or highways for speed contests, or races, to be conducted under suitable patrol and under other proper restrictions for the safety of the public as hereinabove provided; *and provided, further*, that local authorities may by general rule, ordinance or regulation, exclude vehicles from any cemetery or ground used for the burial of the dead, or exclude vehicles used solely or principally for commercial purposes from any park or part of a park system where such general rule, ordinance, or regulation is applicable equally and generally to all other vehicles used for the same purpose; *provided*, that at the entrance or at each entrance, if there be more than one, to such cemetery or park from which vehicles are so excluded, there is posted a sign in writing or printing, in the English language, plainly legible from the middle of the highway or public road on which said cemetery or park opens, plainly indicating the prohibition of such general rule, ordinance or regulation.

"SEC. 23. (*a*) In case of the arrest three times within a period of sixty days of any person for the violation of section 22 of this Act, followed by the conviction of such person upon each of such charges, or in case of two arrests within any period of sixty days of any person for the violation of section 17 of this Act, followed by the conviction of such person upon each of such charges, the department shall forthwith revoke the license of such person to operate a motor vehicle on the public highways of this State, in case said violations, or any of them, occurred in connection with the operation of a motor vehicle. Upon so revoking the license the department shall forthwith send notice of such revocation to the operator and to the local police authorities, and shall make demand upon the operator for the return to the department of the license certificate theretofore issued to him, and of the badge in case of a chauffeur. It shall be the duty of the operator to return such license certificate and of a chauffeur to return also his badge in compliance with a demand so made. The department shall not again issue any such license to such person until the expiration of six months from the date of the last conviction of such person as hereinabove provided for; and it shall be unlawful, whether said convictions were had in connection with the operation of a motor vehicle or of any other vehicle, for such person so convicted to operate or drive any vehicle upon the public highway anywhere within this State, during a period of six months after the date of the last conviction hereinabove provided for.

"(*b*) In addition to all other punishments provided in this Act, the court may, for a period of not to exceed thirty days, suspend an operator's or chauffeur's license upon conviction of the licensee for violation of any of the provisions of this Act.

"SEC. 24. (*a*) Before operating a motor vehicle upon the public highways, application for a license to operate such vehicle shall be made by mail or otherwise to the department upon a blank to be prepared, and furnished on request, by said department. In the case of an application to operate a motor vehicle as chauffeur, the fees provided in section 7 of this Act shall accompany the application. To each person shall be assigned some distinguishing number or mark and the license certificate issued shall be in such form as the said department may determine; it shall contain the distinguishing number or mark assigned to the licensee, his name, age, place of residence, business address if any, and a brief description of the licensee for the purpose of identification, and such other information as the said department shall deem necessary. Every person licensed to operate motor vehicles as aforesaid, shall endorse his usual signature in the space on the license certificate provided for the purpose, immediately upon the receipt of said certificate, and his license shall not be valid until the certificate is so endorsed. The licenses issued to chauffeurs shall be valid for one year only from the date of issue and the licenses issued to operators shall be valid until suspended or revoked as in this Act provided. The said department shall furnish to every chauffeur so licensed a suitable metal badge with the distinguishing number assigned to him stamped thereon, without extra charge therefor, such badge to have stamped thereon the words 'Registered Chauffeur No. -----, Cal.' with the said license number inserted therein. This badge shall thereafter be worn by such chauffeur, affixed to his clothing in a conspicuous place, at all times when he is operating or driving a motor vehicle upon the public highway but shall be valid only for a period of one year from date of issuance. In case of the loss of such badge, a duplicate will be issued by the said department on the filing of an affidavit showing the fact of loss and on payment of a fee of one dollar to the department. An application for the annual renewal of a chauffeur's license shall be accompanied by the fee required by this Act.

"(*b*) It shall be unlawful for any person to cause or knowingly to permit his or her child or ward to violate any of the foregoing provisions of this section.

"SEC. 25. Upon the receipt of an application as provided in section 24 of this Act, the department shall thereupon file the same, and register the applicant in a book or on index cards which shall be kept in the same manner, subject to public inspection, as the books or index cards for the registration of motor vehicles.

"SEC. 26. No person shall use a fictitious name in applying for such chauffeur's or operator's license, nor shall any chauffeur or operator licensed as herein provided, voluntarily permit any other person to possess or use his license certificate, or badge, nor shall any person while operating or driving a motor vehicle use or possess any license certificate or badge belonging to another person, or a fictitious license certificate or badge.

"SEC. 27. No person shall operate or drive a motor vehicle upon a public highway after the thirty-first day of December, 1915, nor shall any owner of a motor vehicle permit such vehicle to be so operated or driven after said date, unless the requirements of this Act shall have been in all respects complied with; *provided, however*, that a nonresident operator or chauffeur who has complied with the provisions of the country or state of his residence relative to the operation of motor vehicles and who, while operating a motor vehicle upon the highways of this State shall wear such badge as may have been assigned to him in the country or state of his residence, shall be exempt from license hereunder for a period not to exceed three months in any calendar year; *provided, further*, that a nonresident owner of a motor vehicle, not later than ten days after commencing to operate such motor vehicle, or to permit the same to be operated, upon the public highways of this State shall apply to the department for registration of such motor vehicle, said application to be made upon a blank form to be prepared and furnished by the department and to state in addition to such other matters as may be required by the department, the name and post office and residence address of the applicant, together with registration number, if any, of said motor vehicle in the country or state in which said applicant resides. Upon receipt of such application last above described the department shall furnish to the applicant, without charge, a registration device of a distinctive form to be determined by the department, indicating that the holder thereof has complied with the requirements of this Act and containing such other matter as may be deemed suitable by the department, which device shall be valid not to exceed three months from the date of its issuance, at the end of which period it shall be returned, transportation prepaid, to the department. The department shall file, alphabetically, such applications for registration by nonresident owners of motor vehicles, and the files shall be open to inspection by the public during reasonable business hours.

"SEC. 28. Any person who shall drive or operate, or cause to be driven or operated, upon any public highway any motor vehicle not his own, without intent to steal the same, in the absence of the owner thereof, and without such owner's consent, shall be guilty of a misdemeanor.

"SEC. 29. Any person who throws or deposits any glass bottle, glass, nails, tacks, hoops, wire, cans, or any other substance likely to injure any person, animal, or vehicle upon any public highway, shall be guilty of a misdemeanor.

"SEC. 30. (*a*) Any person who shall, individually or in association with one or more others, wilfully break, injure, tamper with or remove any part or parts of any motor vehicle, for the purpose of injuring, defacing or destroying such vehicle, or temporarily or permanently preventing its useful operation, or for any purpose against the will or without the consent of the owner of such vehicle or who shall in any other manner wilfully or maliciously interfere with or prevent the running or operation of such vehicle, shall be guilty of a misdemeanor.

"(*b*) Any person who shall, without consent of the owner or person in charge of a motor vehicle, climb upon or into such vehicle whether the same be in motion or at rest; or who, while such vehicle is at rest and unattended, shall attempt to manipulate any of the levers, the starting crank, or other device, brakes, or mechanism thereof, or to set said vehicle in motion shall be guilty of a misdemeanor.

"SEC. 31. No chauffeur or other person having the care of a motor vehicle for the owner shall receive or take, directly or indirectly, without the written consent of such owner, any bonus, discount or other consideration for supplies or parts furnished or purchased for such motor vehicle, or on any work or labor done thereon by others, or on the purchase of any motor vehicle for his employer, and no person furnishing such supplies or parts, work or labor, or selling any motor vehicle shall give or offer any such chauffeur or other person having the care of a motor vehicle for the owner thereof, directly or indirectly, without such owner's written consent, any bonus, discount, or other consideration thereon. Any person violating this section shall be guilty of a misdemeanor.

"SEC. 32. We ask you, knowing you personally, to vote for the jitney bus bills now before the Legislature. They have a great advantage over the electric railways because they are not taxed or regulated. If present conditions keep up, the electric railways will be seriously crippled or put out of business and our livelihood will disappear accordingly. The present situation is not fair to the electric railways nor their twenty-five thousand employees in this State. We ask you to vote for these bills and help establish a fair basis of competition. I represent six hundred employees, Pacific Electric Railway, Southern Division.

No interest shall be paid on any of said bonds for such time as may intervene between the date of said bond and the date of sale thereof, unless such accrued interest shall have been, by the purchaser of said bond, paid to the State at the time of such sale.

Said resolution shall specify the amount of money which, in the judgment of said advisory board, shall be required at such time, and the Governor of the State shall direct the State Treasurer to sell such number of said bonds as may be required to raise said amount of money and that said bonds shall be sold in consecutive numerical order commencing with the first three hundred thereof. The State Treasurer shall not accept any bid which is less than the par value of the bond plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. The State Treasurer may at the time and place fixed by him for said sale continue such sale as to the whole or any part of the bonds offered to such time and place as he may at the time of such continuance designate. Before offering any of said bonds for sale, the said Treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such sale. The State Treasurer shall give notice of the time and place of sale by publication in two newspapers published in the city and county of San Francisco and in one newspaper published in the city of Oakland, and in one newspaper published in the city of Los Angeles and in one newspaper published in the city of Sacramento once a week for four weeks next preceding the date fixed for such sale. There is hereby created in and for the state treasury a fund to be known and designated as the "Second State Highway Fund," and immediately after such sale of bonds the Treasurer of the State shall pay into the state treasury and cause to be placed in said Second State Highway Fund the total amount received for said bonds, except such amount as may have been paid as accrued interest thereon. The amount that shall have been paid at such sale as accrued interest on the bonds sold shall be by the Treasurer of the State, immediately after such sale, paid into the treasury of the State and placed in the "Second State Highway Interest and Sinking Fund," which is hereby created.

The moneys placed in the said Second State Highway Fund, pursuant to the provisions of this section, shall be used exclusively for the acquisition of rights of way for and the acquisition, construction and improvement of the uncompleted portions of the system of State highways prescribed by said "State Highways Act."

The moneys in said State Highway Revolving Fund, or such part thereof as the advisory board of the Department of Engineering shall deem necessary, may be expended, from time to time, upon the demands of the Department of Engineering, approved by the State Board of Control, for the purpose of making cash payments in advance for such expenditures as are necessary and proper to carry out the provisions of this Act. Upon receipt of such demands, so approved, it shall be the duty of the State Controller to draw his warrant upon said "State Highway Revolving Fund" in favor of the person or persons therein named, and the State Treasurer shall pay the same. On or before the tenth day of each month thereafter, the Department of Engineering shall submit to the State Board of Control a verified, itemized statement, showing all expenditures during the preceding calendar month of the moneys so withdrawn from said "State Highway Revolving Fund," accompanied by proper vouchers and receipts therefor. Such statements shall be audited by the State Board of Control in the same manner that claims against the State are audited, and, if found to be correct, shall be approved by the State Board of Control and transmitted to the State Controller with such approval endorsed thereon. The State Controller shall thereupon draw his warrant upon the "Second State Highway Fund" in favor of the Department of Engineering for the aggregate amount of such expenditures, and upon the surrender of such warrant, properly endorsed, the State Treasurer shall transfer the amount thereof upon the books of his office from the said "Second State Highway Fund" to the said "State Highway Revolving Fund," to be expended as aforesaid.

SEC. 5. There is hereby appropriated from the general fund in the state treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds, issued and sold pursuant to the provisions of this Act, as said principal and interest becomes due and payable.

There shall be collected annually in the same manner and at the same time as other State revenue is collected such a sum, in addition to the ordinary revenues of the State as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

The Treasurer of the State shall, on the first day of January, 1918, and on the first day of each July and the first day of each January thereafter transfer from the general fund of the State treasury to the "Second State Highway Interest and Sinking Fund" such an amount of the money by this Act appropriated as shall be required to pay the interest on the bonds theretofore sold, until the interest on all of said bonds so sold shall have been paid or shall have become due in accordance with the provisions of this Act.

The Treasurer of the State shall, on the first day of July of the year 1923, and on the first day of July, of each and every year thereafter in which a parcel of the bonds sold pursuant to the provisions of this Act shall become due, transfer from the general fund of the State treasury to the said Second State Highway Sinking Fund such an amount of the moneys appropriated by this Act as may be required to pay the principal of the bonds so becoming due and payable in such years.

SEC. 6. The principal of all said bonds sold shall be paid at the time the same becomes due, from the second state highway sinking fund, and the interest on all bonds sold shall be paid at the time said interest becomes due, from the second State highway interest and sinking fund. Both principal and interest shall be so paid upon warrants duly drawn by the Controller of the State upon demands audited by the State Board of Control, and the faith of the State of California is hereby pledged for the payment of the principal of said bonds so sold, and the interest accruing thereon.

SEC. 8. The highway constructed or acquired under the provisions of this Act shall be permanent in character and be finished with oil or macadam or a combination of both, or of such other material as in the judgment of the said Department of Engineering shall be most suitable and best adapted to the particular locality traversed. The State Department of Engineering, in the name of the people of the State of California, may purchase, or receive by donation or dedication from counties, or from public or private persons, or it may lease, any right of way, rock quarry or land necessary or proper for the construction, use, improvement or maintenance of said state highway and shall proceed, if necessary, to condemn under the provisions of the Code of Civil Procedure relating to such proceedings any necessary or proper right of way, rock quarry or land. The Department of Engineering shall have full power and authority to purchase, sell, exchange, lease or otherwise acquire or dispose of all supplies, stock, material, machinery and implements and do all other things necessary or proper in the construction improvement or maintenance of said state highway. Whenever any money received from the sale of bonds, under the provisions of this Act, shall be expended in any county in this State, such county must pay into the state treasury such sum each year as shall equal the interest, at the rate of four and one-half per cent, per annum, upon the entire sum of money expended within such county in the construction of said State highway, less such portion of said amount expended as the bonds matured under the provisions of this Act shall bear to the total number of bonds sold and outstanding; *provided, however*, that in all cases where, by reason of physical difficulties to be overcome, or other good and sufficient cause, the State Department of Engineering shall determine that the cost of construction of any portion of such State highway in any county, or counties, is so great as to entail an unjust and inequitable burden upon any such county, or counties, in refunding to the State the sums so paid for interest upon the bonds sold and the proceeds thereof applied as aforesaid, such county, or counties, shall not be required to refund the whole amount of such interest, but only such proportion thereof as the State Department of Engineering shall adjudge to be fair and reasonable. All highways constructed or acquired under the provisions of this Act shall be permanently maintained and controlled by the State of California.

SEC. 9. This Act, if adopted by the people, shall take effect on the thirty-first day of December, 1916, as to all its provisions except those relating to, and necessary for, its submission to the people and for returning, canvassing and proclaiming the votes, and as to said excepted provisions this Act shall take effect ninety days after the final adjournment of the present session of the Legislature.

The Governor of this State shall include the submission of this Act to the people as aforesaid, in his proclamation calling for said general election.

SEC. 11. The votes cast for or against this Act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for State officers, and if it appears that said Act shall have received a majority of all the votes cast for and against it at such election, as aforesaid, then the same shall have effect as hereinbefore provided and shall be irrepealable until the principal and interest of the liabilties herein created shall be paid and discharged, and the Governor shall make proclamation thereof. But if a majority of the votes cast, as aforesaid, are against this Act then the same shall be and become void.

"A separate department of the State Mining Bureau is hereby established and created to be known as the Department of Petroleum and Gas. Such department shall be under the general jurisdiction of the State Mineralogist. He shall appoint a supervisor who shall be a competent engineer or geologist experienced in the development and production of petroleum and who shall be designated the "State Oil and Gas Supervisor," and whose term of office shall be four years from and after the date of his appointment.

"SEC. 2. For his services in the general supervision of said department the State Mineralogist shall receive as compensation one thousand four hundred dollars annually which shall be in addition to his compensation fixed in section 2 of the Act of June 16, 1913, relating to the State Mining Bureau. The supervisor shall receive an annual salary of four thousand five hundred dollars, and shall be allowed his necessary traveling expenses. The State Mineralogist may appoint necessary clerks, stenographers, and assistants, and prescribe their duties and fix their compensation, within the amount limited in section forty-six hereof and subject to the civil service laws of the State. The additional salary herein authorized to be paid to the State Mineralogist and the salaries of the supervisor and of the deputies, clerks, stenographers, assistants and other employees shall be paid out of the funds hereinafter provided for at the times and in the manner that salaries of other State officers and employees are paid.

"SEC. 3. It shall be the duty of the State Oil and Gas Supervisor so to supervise the drilling, operation and maintenance and abandonment of petroleum or gas wells in the State of California, as to prevent, as far as possible, damage to underground petroleum and gas deposits from infiltrating water and other causes and loss of petroleum and natural gas.

"SEC. 4. It shall be the duty of the State Oil and Gas Supervisor to appoint not more than four deputies and prescribe their duties, and fix their compensation. Such deputies shall serve during the pleasure of the supervisor. He may also employ an attorney and fix his compensation. The supervisor, the deputies, and the attorney shall not be subject to the Civil Service Act.

"SEC. 5. Each deputy appointed by the supervisor shall be a competent engineer or geologist experienced in the development and production of petroleum. Each deputy shall be assigned certain districts or territory, and shall maintain an office in the district, convenient of access to the petroleum or gas operators therein. The office shall be open and the deputy shall be present at certain specified times which shall be posted at such office.

"SEC. 6. It shall be the duty of each deputy, to collect all necessary information regarding the oil wells in the district, with a view to determining the presence and source of water in the oil sand, and to make all maps and other accessories necessary to determine the presence and source of water in the oil sands. This work shall be done with the view to advising the operators as to the best means of protecting the oil and gas sands, and with a view to aiding the supervisor in ordering tests or repair work at wells. All such data shall be kept on file in the office of the Deputy Oil and Gas Supervisor of the respective district.

"SEC. 7. The records of any and all operators, when filed with the deputy supervisor as hereinafter provided, shall be open to inspection to those authorized in writing by such operators, to the State officers, and to the board of arbitration hereinafter provided for. Such records shall in no case be available as evidence in court proceedings and no officer or employee or member of any board of arbitration shall be allowed to give testimony as to the contents of said records, except at such court proceedings as are hereinafter provided for in the review of the decision of the State Oil and Gas Supervisor, or a board of arbitration, and in criminal proceedings arising out of such records, or the statements upon which they are based.

"SEC. 8. It shall be the duty of the supervisor to order such tests or remedial work as is in his judgment necessary to protect the petroleum and gas deposits from damage by underground water, to the best interest of the neighboring property owners and the public at large. The order shall be in written form, signed by the supervisor, and served upon the owner of the well or his local agent, in the manner provided in section eleven hereof. The order shall specify the work necessary to protect such deposits from damage from underground waters. For this purpose each operator or owner shall designate an agent, giving his post office address, who resides within the county where the well or wells are located, upon whom all orders and notices provided for in this act may be served.

"SEC. 9. The well owner, or his local agent, may within ten days from date of service of order from the supervisor, file with the supervisor, or his deputy in the district where the property is located, a statement that the supervisor's order is not acceptable and that arbitration of the subject is demanded.

"SEC. 10. Arbitration of a question which has been the subject of an order by the supervisor shall be accomplished by a board of three members, as follows: (1) The owner of the well or his local agent shall name one member who shall not be directly or indirectly interested in the property, nor employed in its operation. (2) The owners, or their local agents, of wells within a radius of one mile from the affected well, shall name one member of the arbitration board, who shall not be directly or indirectly interested in the property nor employed in its operation. For this purpose the supervisor shall give written notice to each of the said owners or agents. The notice shall specify the time and place of meeting and the fact that it is for the purpose of choosing an arbitrator. The notice shall be published once in a newspaper of general circulation, published in the county where the meeting is to be held, and posted in a conspicuous place at the office of the deputy supervisor at least five days before the time of meeting, and a copy thereof mailed to each of such owners, or their local agents, at the address given, at least five days before the time of meeting. A majority of those attending such meeting shall be sufficient to choose such arbitrator. (3) The third member of the arbitration board shall be chosen by the other members, but if they fail to choose a third member within ten days after the selection of the first two members then such third member shall be chosen by the State Mineralogist, and shall not be directly or indirectly interested in the property, nor employed in its operation. The arbitrators chosen as above specified shall each be paid ten dollars per day for each day of actual service, not to exceed thirty dollars each for any one case, upon warrants drawn upon the repair fund hereinafter created, and approved by the State Mineralogist. One-half of the cost of arbitration shall be paid by the person demanding it and the board of arbitration may, at its discretion, order that the entire cost of such arbitration shall be paid by such person if it finds that such arbitration has been demanded needlessly or not in good faith.

"SEC. 11. Upon receipt by the supervisor or deputy supervisor of a written complaint, signed by one-third of the individuals or corporations owning land or operating wells within a radius of one mile of any well, or group of wells, the supervisor must make an investigation of said well or wells and render a written order stating the work required to repair the damage complained of, or stating that no work is required. A copy of such order must be delivered to each of the complainants and, if the supervisor order the damage repaired, a copy of such order shall be delivered to each of the owners, or agents, having in charge the wells upon which the work is to be done. Service of such copies shall be by mailing to such persons at the post office address given. Within ten days after the date of mailing of such order any of such complainants may demand arbitration of the matter as provided in section 10 of this act. When said complaint is made by a single party against a well or wells, of which there is no financially responsible owner, the supervisor may order the necessary repair work, the expense of which shall be a charge against the complainant collectible as provided in section 14.

"SEC. 12. In any proceedings before the board of arbitration herein provided for, the supervisor shall have the power to subpœna witnesses and to administer oaths; *provided, however*, that no person shall be required to attend upon such subpœnas, either with or without books, papers, documents or accounts, unless residing within the same county or within thirty miles of the place of attendance, but the supervisor may in such a case cause the deposition of witnesses residing within or without the State, to be taken in the manner prescribed by law for like depositions in civil actions in the Superior Courts of this State, and to that end may compel the attendance of witnesses and the production of books, papers, and documents at such places as he may designate within the limits hereinbefore prescribed. Witnesses shall be entitled to receive the fees and mileage fixed by law in civil cases. In case of failure on the part of any person to comply with any order of the supervisor, or any subpœna, or upon the refusal of any witness to testify to any matter regarding which he may lawfully be interrogated before the board, it shall be the duty of the Superior Court or the judge thereof, on application of the supervisor, to compel obedience in the same manner, by contempt proceedings or otherwise, that such obedience would be compelled in a proceeding pending before the court.

"SEC. 13. Within ten days after hearing the evidence the arbitration board shall make a written decision ordering such tests or remedial work as is deemed necessary to protect the oil sands from damage by infiltrating water. This written decision shall be served upon the owner or his agent and shall supersede and nullify the previous order of the supervisor provided for in section 8 hereof. In case no written decision is made by a board of arbitration within thirty days after the date of notice by the supervisor, as provided in section 10 hereof, the order of the supervisor shall be effective and subject only to review by writ of certiorari from the Superior Court as provided in section 14 hereof.

"SEC. 14. On or before thirty days after the date of serving an order of the supervisor provided for in section 8 hereof, or, in case of arbitration, on or before thirty days after date of serving the decision of the board, as provided in sections 12 and 13 hereof, the owner shall commence in good faith the work ordered, and continue until completion. If the work has not been so commenced and continued to completion the supervisor shall appoint agents as he deems necessary, who shall enter the premises and perform the work. Accurate account of all such expenditures shall be kept and the amount paid from the fund hereinafter created upon the warrant of the State Controller. Any amounts so expended shall constitute a lien against the property upon which the work is done. The decision of the board of arbitration or of the supervisor in such a case may be reviewed by writ of certiorari from the Superior Court of the county in which the district is situated, if taken within thirty days after the signing of the order. If no review is taken or, if taken, the decision of the board is affirmed, the lien upon the property shall be enforced in the same manner that other liens on real property are enforced and shall first be enforced against the owner of the well, against the operator and against the personal property and fixtures used in the construction or operation thereof, and then if there then be any deficiency, against the land upon which the work is done.

"SEC. 15. It shall be the duty of the owner of any well now drilled, or that may be drilled, in the State of California, on lands producing or reasonably presumed to contain petroleum or gas, to properly case such well or wells, with metal casing, in accordance with methods approved by the supervisor, and to use every effort and endeavor in accordance with the most approved methods to effectually shut off all water overlying or underlying the oil or gas bearing strata, and to effectually prevent any water from penetrating such oil or gas bearing strata.

"SEC. 16. It shall be the duty of the owner of any well referred to in this Act, before abandoning the same, to use every effort and endeavor in accordance with methods approved by the supervisor, to shut off and exclude all water from entering oil-bearing strata encountered in the well. The owner shall give written notice to the supervisor, or his local deputy, of his intention to abandon any well and the date when such work of abandonment shall begin. The notice shall be given to the supervisor, or his local deputy, at least fifteen days before such proposed abandonment. The owner shall furnish the supervisor, or his deputy, with such information as he may request, showing the condition of the well and proposed method of abandonment. The supervisor, or his deputy, shall before the proposed date of abandonment furnish the owner with a written order of approval of his proposal or a written order stating what work will be necessary before approval, to abandon, will be given. If the supervisor shall fail within the specified time to give the owner a written order such failure shall be considered as an approval of the owner's proposal to abandon the well.

"SEC. 17. The owner of any well referred to in this Act shall, before commencing the work of drilling an oil or gas well, file with the supervisor, or his local deputy, a written notice of intention to commence drilling. Such notice shall also contain the following information: (1) Statement of location and elevation above sea level of proposed derrick and drill rig. (2) The number or other designation by which such well shall be known, which number or designation shall not be changed after filing notice provided for in this section, without the written consent of the supervisor being obtained therefor. (3) The owner's estimate of the depth of the point at which water shall be shut off. (4) The owner's estimate of the depth at which oil or gas producing sand or formation shall be encountered. The provisions of this section shall also apply, so far as may be, to the deepening or re-drilling of any well.

"SEC. 18. It shall be the duty of the owner of any well referred to in this Act, to keep a careful and accurate log of the drilling of such well, such log to show the character and depth of the formations passed through or encountered in the drilling of such well, and particularly to show the location and depth of the water-bearing strata, together with the character of the water encountered from time to time (so far as ascertained) and to show at what point such water was shut off, if at all, and if not, to so state in such log, and show completely the amounts, kinds and size of casing used, and show the depth at which oil-bearing strata is encountered, the depth and character of same, and whether all water overlying and underlying such oil-bearing strata was successfully and permanently shut off so as to prevent the percolation or penetration into such oil-bearing strata; such log shall be kept in the local office of the owner or operator and subject to the inspection of the supervisor or any of his deputies at any time during business hours, and a copy of said log shall be filed with the deputy supervisor immediately upon the completion of said well and also a complete copy shall be filed with the deputy supervisor upon the completion of any additional work upon the well. The owner of any well drilled previous to the enactment of this Act shall furnish to the supervisor a complete and correct log of such well, so far as may be possible, together with a statement of the present condition of said well.

"SEC. 19. It shall be the duty of the owner of any well referred to in this Act to notify the deputy supervisor of the time at which the owner shall test the shut-off of water in any such well. Such notice shall be given at least five days before such test. The deputy supervisor shall be present at such test and shall forthwith note in the log book the result thereof. If any test shall be unsatisfactory to him he shall notify the owner of that fact.

"SEC. 20. It shall be the duty of every person, association or corporation, producing oil in the State of California, to file with the supervisor at his request, but not oftener than once in each month a sworn statement of the amount of oil produced during the period indicated, its gravity and the number of wells drilling, producing, idle, or abandoned. This information shall be in such form as the supervisor may designate.

"SEC. 21. Any owner or operator of a well referred to in this Act, or employee thereof, who refuses to permit the supervisor, or his deputy, to inspect the same, or who wilfully hinders or delays the enforcement of this Act, and every person, firm, or corporation, who violates any provision of this Act is guilty of a misdemeanor and shall be punishable by a fine of not less than one hundred dollars, or by imprisonment in the county jail for not less than thirty days, or by both such fine and imprisonment.

"SEC. 22. Charges levied, assessed and collected as hereinafter provided upon the properties of every person, firm, corporation or association, operating any oil well or wells for the production of petroleum in this State, or operating any well or wells for the production of natural gas in this State where gas wells are situate in counties having producing petroleum wells chargeable under this Act, and on lands situate within two miles, as near as may be, of any petroleum or gas well the production of which is chargeable under this Act, shall be used exclusively for the support and maintenance of the department of petroleum and gas hereinbefore created, and shall be assessed and levied by the State Mineralogist, and collected in the manner hereinafter provided.

"SEC. 23. Every person, firm, corporation or association operating any petroleum well or wells in this State shall annually pay a charge to the State Treasurer at a uniform rate per barrel of petroleum produced for the preceding calendar year at the time and in the manner hereinafter provided, based upon a verified report as herein provided

"SEC. 24. Every person, firm, corporation, or association operating any gas well or wells in this State shall annually pay a charge to the State Treasurer based upon the amount of gas sold in the preceding calendar year at a fixed rate per thousand cubic feet, which rate shall be based upon the proportionate benefits resulting to the property so assessed by reason of the expenditures made under this Act, in the county, in which each such well is located. Said charge shall be based upon a verified report as herein provided; *provided, further*, that no charges shall be assessed, levied, or collected from any person, firm, corporation, or association operating a gas well or wells in any county in which there exist no producing petroleum wells to be assessed under the provisions of this Act.

"SEC. 25. Every person, firm, corporation or association owning any oil land, as determined by the supervisor, shall annually pay a charge to the State Treasurer at the time and in the manner hereinafter provided, which charge shall be a uniform rate per acre. Said charge shall be based upon a verified report as provided herein; *provided, however*, that such lands so assessed shall not be called upon to pay more than one-tenth of the total charges or moneys proposed to be assessed, levied and collected under the provisions of this Act for any one year.

"SEC. 26. The charges assessed, levied and to be collected under the provisions of this Act shall be in addition to any and all charges, taxes, assessments or licenses of any kind or nature paid by or upon the properties assessed hereunder.

"SEC. 27. The State Mineralogist shall annually, on or before the first Monday in March, acting in conjunction with the State Board of Control, make an estimate of the amount of moneys which shall be required to carry out the provisions of this Act.

"SEC. 28. The State Mineralogist shall prescribe the form and contents of all reports for making the charge or other purposes to carry out the intent and provision of this Act, which form shall be mailed in duplicate to the person, firm, corporation or association owning property or assessed under the provisions of this Act.

"SEC. 29. Every person, firm, corporation or association chargeable under the provisions of this Act, shall within ten days after the first Monday in March of each year, report to and file with the State Mineralogist, a report in such form as said officer may prescribe, giving any and all items of information as may be demanded by said report, and necessary to carry out the provisions of this Act, which report shall be verified by such person or officer as the State Mineralogist may designate.

"SEC. 30. If any person, firm, corporation or association chargeable under the provisions of this Act shall fail or refuse to furnish the State Mineralogist within the time prescribed in this Act the verified report provided for in this Act, the State Mineralogist must note such failure or refusal in the record of assessments hereinafter in this Act provided for, and must make an estimate of the petroleum or gas production, or landed area to be assessed of any such person, firm, corporation or association, and must assess the same at the amount thus estimated and compute the charge thereon, which assessment and charge shall be the assessment and charge for such year. And if in the succeeding year any such person, firm, corporation or association shall again fail and refuse to furnish the verified report required by this Act, the State Mineralogist shall make an estimate as aforesaid, which estimate shall not be less than twice the amount of the estimate made by him for the previous year, and shall note such failure or refusal as above provided, and the said estimate so made shall be the assessment or charge for said year. In case of each succeeding consecutive failure or refusal the said State Mineralogist shall follow the same procedure until a true statement or report shall be furnished.

"SEC. 31. Any person, firm, corporation or association failing or refusing to make and furnish any report prescribed in this Act or rendering a false or fraudulent report shall be guilty of a misdemeanor and subject to a fine of not less than three hundred dollars and not exceeding one thousand dollars for each such offense.

"SEC. 32. The State Mineralogist may, for good cause shown, by order entered upon his minutes, extend for not exceeding thirty days, the time fixed in this Act for filing any report herein provided for.

"SEC. 33. On or before the third Monday before the first Monday in July the State Mineralogist shall determine the rate or rates which, when applied to the assessments provided for in this Act, shall produce the sum necessary to be raised as provided in section 27 of this Act. Within the same time the said State Mineralogist shall extend in the proper column of the record of assessments hereinafter provided for the amount of charges due from each person, firm, corporation or association.

"SEC. 34. Between the first Monday in March and the third Monday before the first Monday in July in each year, the State Mineralogist must assess and levy the charges as and in the manner provided for in this Act. The assessments must be made to the person, firm, corporation or association owning or operating the property subject to assessment hereunder on the first Monday in March. If the name of the owner is unknown to the State Mineralogist, such assessment must be made to unknown owners. Clerical errors occurring or appearing in the name of any person, firm, corporation or association whose property is properly assessed and charged, or in the making, or extension of any assessment or charge upon the records, which do not affect the substantial rights of the payer, shall not invalidate the assessment or charge.

"SEC. 35. The State Mineralogist and the chairman of the State Board of Control and the chairman of the State Board of Equalization shall constitute a board of review, correction and equalization, and shall have all the powers and perform such duties as usually devolve upon a county board of equalization under the provisions of section 3672 of the Political Code. The State Mineralogist shall act as secretary of said board, and shall keep an accurate minute of the proceedings thereof. Said board of review, correction and equalization shall meet at the state capitol on the third Monday before the first Monday in July of each year, and remain in session from day to day until the first Monday in July for the purpose of carrying out the provisions of this section.

"SEC. 36. On the third Monday before the first Monday in July of each year the State Mineralogist shall cause to be published a notice, one or more times, in a daily, or weekly, or semi-weekly newspaper of general circulation published in the counties of Fresno, Kern, Los Angeles, Orange, Ventura and Santa Barbara, if one be published therein, otherwise in a newspaper of general circulation published in the county nearest to such county designated herein in which no such paper is published, that the assessment of property and levy of charges under and in pursuance of this Act has been completed and that the records of assessments containing the charges due will be delivered to the State Controller on the first Monday in July.

and that if any person, firm, corporation or association is dissatisfied with the assessment made or charge fixed by the State Mineralogist, he or it may, at any time before said first Monday in July, apply to said board of review, correction and equalization to have the same corrected in any particular. The said board shall have power at any time before said first Monday in July to correct the record of assessments and may increase or decrease any assessment or charge therein if in its judgment the evidence presented or obtained warrants such action. Costs of such publication in any county shall be paid from the repair fund of said county.

"SEC. 37. The State Mineralogist must prepare each year a book, in one or more volumes, to be called the 'Record of Assessments and Charges for Oil Protection,' in which must be entered, either in writing or printing, or both writing and printing, each assessment and levy or charge made by him upon the property provided to be assessed and charged under this Act, describing the property assessed, and such assessments may be classified and entered in such separate parts of said record as said State Mineralogist shall prescribe.

"SEC. 38. On the first Monday in July the State Mineralogist must deliver to the State Controller the record of assessments and charges for oil protection, certified to by said State Mineralogist, which certificate shall be substantially as follows: 'I, ..., State Mineralogist, do hereby certify that between the first Monday in March and the first Monday in July, 19.., I made diligent inquiry and examination to ascertain all property and persons, firms, corporations and associations subject to assessment for the purpose of oil protection as required by the provisions of the Act of Legislature approved ...., 19.., providing for the assessment and collection of charges for oil protection; that I have faithfully complied with all the duties imposed upon me by law; that I have not imposed any unjust or double assessment through malice or ill will, or otherwise; nor allowed any person, firm, corporation or association, or property to escape a just assessment or charge through favor or regard, or otherwise.'

"But the failure to subscribe such certificate to such record of assessments and charges for oil protection, or any certificate, shall not in any manner affect the validity of any assessment or charge.

"It is the intention of this Act that in the assessment of the lands as provided in section 25 hereof, and in carrying such assessments to the record of assessments aforesaid, the State Mineralogist shall keep within two miles as near as may be of producing petroleum or gas wells as provided in said section 25 hereof.

"SEC. 39. The charges levied and assessed under the provisions of this Act shall be due and payable on the first Monday in July in each year, and one-half thereof shall be delinquent on the sixth Monday after the first Monday in July at six o'clock p.m. and unless paid prior thereto, fifteen per cent. shall be added to the amount thereof, and unless paid prior to the first Monday in February next thereafter at six o'clock p.m., an additional five per cent. shall be added to the amount thereof, and the unpaid portion, or the remaining one-half of said charges shall become delinquent on the first Monday in February next succeeding the day upon which they become due and payable, at six o'clock p.m.; and if not paid prior thereto five per cent. shall be added to the amount thereof.

"SEC. 40. Within ten days after the receipt of the record of assessments and charges for oil protection, the State Controller must begin the publication of a notice to appear daily for five days, in one daily newspaper of general circulation published in each of the counties of Fresno, Kern, Los Angeles, Orange, Ventura and Santa Barbara, if one be published therein, otherwise for at least two times in a weekly or semi-weekly paper of general circulation published therein, or if there be neither a daily, nor weekly nor semi-weekly paper of general circulation published in any one of such counties, then the publication of the notice for such county shall be made in a similar manner in a newspaper of general circulation published in the county nearest such county, specifying:

"(1) That he has received from the State Mineralogist the record of assessments and charges for oil protection.

"(2) That the charges therein assessed and levied are due and payable on the first Monday in July and that one-half thereof will be delinquent on the sixth Monday after the first Monday in July at six o'clock p.m., and that unless paid to the State Treasurer at the capitol prior thereto, fifteen per cent. will be added to the amount thereof, and unless paid prior to the first Monday in February next thereafter at six o'clock p.m., an additional five per cent. will be added to the amount thereof; and that the remaining one-half of said charges will become delinquent on the first Monday in February next succeeding the day upon which they become due and payable, at six o'clock p.m.; and if not paid to the State Treasurer at the capitol prior thereto, five per cent. will be added to the amount thereof. Costs of such publication in any county shall be paid from the repair fund of said county.

"SEC. 41. The assessments and charges levied under the provisions of this Act shall constitute a lien upon all the property of every kind and nature belonging to the persons, firms, corporations, and associations and assessed under the provisions hereof, which lien shall attach on the first Monday in March of each year. Every charge and assessment herein provided for has the effect of a judgment against the person, firm, corporation or association, and every lien created by this Act has the effect of an execution duly levied against all property of the delinquent; the judgment is not satisfied nor the lien removed until such charges, penalties, and costs are paid, or the property sold for the payment thereof.

"SEC. 42. All charges assessed and levied under the provisions of this Act shall be paid to the State Treasurer upon the order of the State Controller. The Controller must mark the date of payment of any charge on the record of assessments and charges for oil protection, and shall give a receipt for such payment in such form as the Controller shall prescribe. Errors appearing in any assessment on said record of assessments or overcharges shall be corrected by the Controller by and with the consent of the State Board of Control in such manner as said Controller and said board shall agree upon.

"SEC. 43. Any person, firm, corporation or association claiming and protesting as herein provided that the assessment made or charges assessed against him or it by the State Mineralogist is void, in whole or in part, may bring an action against the State Treasurer for the recovery of the whole or any part of such charge, penalties, or costs paid on such assessment upon the grounds stated in said protest, but no action may be brought later than the third Monday in February next following the day on which the charges were due, nor unless such person, firm, corporation or association shall have filed with the State Controller at the time of payment of such charges a written protest stating whether the whole assessment or charge is claimed to be void, or if a part only, what part, and the grounds upon which such claim is founded; and when so paid under protest the payment shall in no case be regarded as voluntary.

"Whenever, under the provisions of this section, an action is commenced against the State Treasurer, a copy of the complaint and of the summons must be served upon the Treasurer, or his deputy. At the time the Treasurer demurs or answers, he may demand that the action be tried in the Superior Court of the county of Sacramento, which demand must be granted. The Attorney General must defend the action, or may appoint any competent attorney to so defend, the expense of which employment shall be paid from the repair fund raised under the provisions of this Act. The provisions of the Code of Civil Procedure relating to pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for.

"A failure to begin such action within the time herein specified shall be a bar against the recovery of such charges. In any such action the court shall have the power to render judgment for plaintiff for any part or portion of the charge, penalties, or costs found to be void and so paid by plaintiff upon such assessment.

"SEC. 44. The State Controller shall, on or before the thirtieth day of May next following the delinquency of any charge as provided in this Act, bring an action in a court of competent jurisdiction in the county of Sacramento in the name of the people of the State of California, to collect any delinquent charges or assessments, together with any penalties, or costs, which have not been paid in accordance with the provisions of this Act and appearing delinquent upon the records of assessments and charges for oil protection hereinbefore in this Act provided for.

"The Attorney General, or some competent attorney appointed by him for that purpose, must prosecute such action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for. In such action a writ of attachment may be issued, and no bond or affidavit previous to the issuing of said attachment is required. The special attorney herein authorized to be appointed to prosecute such action or actions shall be paid from the repair funds raised under the provisions of this Act.

"Payment of the charges and penalties or amount of the judgment recovered in such action must be made to the State Treasurer. In such actions the record of assessment and charges for oil protection, or a copy of so much thereof as is applicable in said action, duly certified by the Controller, showing unpaid charges against any person, firm, corporation or association assessed by the State Mineralogist, is prima facie evidence of the assessment upon the property, the delinquency, the amount of charges, penalties, and costs due and unpaid to the State, and that the person, firm, corporation or association is indebted to the people of the State of California in the amount of charges and penalties therein appearing unpaid, and that all the forms of law in relation to the assessment of such charges have been complied with.

"SEC. 45. The first assessment under the provisions of this Act shall be as of the first Monday in March, 1916, and the reports of petroleum production and sales of gas herein provided to be assessed shall be reported for the calendar year ending December 31, 1915. The lands herein provided to be assessed and charged shall be assessed to the owners thereof as of the first Monday in March, 1916.

"SEC. 46. All of the moneys paid to the State Treasurer under this Act shall be deposited to the credit of the 'Oil Protection Fund' which is hereby created. Of the moneys in such funds forty-five thousand dollars only, shall be set aside as a 'supervision account' and shall be available annually for the support and maintenance of the department herein established, and for the necessary expenses of the Controller in carrying out the provisions of this Act. Any balance remaining in said account at the end of any fiscal year shall be carried over and made a part of the succeeding year's 'supervision account'; *provided, further*, that in the first assessment under this Act, an amount equal to the sum appropriated in section 51 hereof, shall be added to the regular supervision account and also the amount of ten thousand dollars which shall be available for providing officers and equipment for the deputy supervisors. All moneys shall be drawn from such fund, for the purpose of this Act, upon warrants drawn by the Controller of the State, upon demands made by the State Mineralogist, and audited by the State Board of Control.

"SEC. 47. The moneys in such fund shall be expended under the direction of the State Mineralogist. All moneys over and above the forty-five thousand dollars for support and maintenance shall be available for the actual repairs of wells as specified in section 14, and for expenditures provided for in sections 36, 40, 43 and 44 of this Act. Moneys collected from any county shall be available for repair work only in said county. Expenditure on repair work, in any county, during one year, shall not exceed an amount equal to twenty-five dollars per producing oil well in said county, but in no county shall the amount exceed twenty-five thousand dollars, and the charges hereinbefore provided for shall be so determined that such amount shall be available. All moneys received in repayment for repair work done under the order and direction of the supervisor, as hereinbefore provided, shall be returned to the repair fund of the county in which the work was done.

"SEC. 48. On or before the first day of October in each and every year, the supervisor shall submit a report in writing to the State Mineralogist showing the total number of barrels of petroleum produced in each county in the State during the previous fiscal year, together with the total cost for said year of supervision as shown by the 'supervision account' and the net amount remaining therein available for the succeeding year's expense, also the total amount uncollected; such report shall also show the total amount collected in each county under the 'County Repair Account' during such year, total amount expended for said purpose, the total amount still outstanding and not repaid, and the sum available for the next succeeding year. Such report shall also include such other information as the supervisor may deem advisable. The State Mineralogist shall make public such statements promptly after receipt of the same from the supervisor for the benefit of all parties interested therein.

"SEC. 49. All leases, licenses and assignments thereof or of any interest therein for, upon or concerning lands or tenements in this State, whereby a right is given or granted to operate or to sink or drill wells thereon for petroleum or gas, or either, or pertaining thereto, shall be filed for record forthwith, and recorded in the records of the county recorder of the county where the property is situated without delay, and not be removed until recorded. No such lease or license shall have any force or validity until it is filed for record as aforesaid, except as between parties thereto, unless the person claiming thereunder is in actual possession.

"SEC. 50. Whenever the term 'supervisor' is used in this Act it shall be taken to mean the 'State Oil and Gas Supervisor,' the term 'oil' shall include 'petroleum,' the term 'petroleum' shall include 'oil,' the term 'gas' shall mean natural gas coming from the earth, the term 'operator' shall mean any person, firm or corporation drilling, maintaining, operating, pumping, or in control of a well in any territory which the supervisor determines to be oil or gas producing territory, the term 'owner' shall include 'operator' when any oil or gas well is operated or has been operated or is about to be operated by any person, firm or corporation other than the owner thereof, and the term 'operator' shall include 'owner' when any such well is or has been or is about to be operated by or under the direction of the owner, except that all the provisions of this Act relating to assessments for the purposes of this Act based upon the annual production of oil or petroleum or sale of gas, as set forth in sections 22 to 45, inclusive of this Act, shall apply only to a person, firm or corporation operating an oil or petroleum or gas well, and shall not apply to the owner of such well if some person, firm or corporation, other than such owner, has been actually operating the well during the whole period for which such annual charge is made, but in the event that the actual operation of any such well changes hands during such period, the charge shall be apportioned upon the basis of the oil or petroleum or gas produced, and the lien provided for in section 41 of this Act shall be a lien against the property of each and all such operators.

"SEC. 51. There is hereby appropriated out of any moneys in the State Treasury, not otherwise appropriated, the sum of twenty thousand dollars which said sum shall be immediately transferred by the State Controller on the books of his office from the general fund to the 'oil protection fund' created by section 46 of this Act.

"The above mentioned fund shall be available for the uses of the State Mineralogist for the maintenance of the Department of Petroleum and Gas and for the necessary expenses of the Controller in carrying out the provisions of this Act. When the collections paid to the State Treasurer, as herein provided, equal the sum of thirty thousand dollars then said sum of twenty thousand dollars shall be re-transferred from the oil protection fund to the general fund. The moneys received into the State treasury through the provisions of this Act are hereby appropriated for the uses and purposes herein specified.

"SEC. 52. If any section, subsection, sentence, clause or phrase of this Act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this Act. The Legislature hereby declares that it would have passed this Act, and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more other sections, subsections, sentences, clauses, or phrases be declared unconstitutional.

"SEC. 53. This Act shall be liberally construed to meet its purposes and the supervisor shall have all powers which may be necessary to carry out the purposes of this Act, but the provisions of this Act shall not apply to any land or wells situated within the boundaries of an incorporated city where the drilling of oil wells is prohibited.

"SEC. 54. That certain Act entitled 'An Act to prevent injury to oil, gas or petroleum-bearing strata or formations by the penetration or infiltration of water therein,' approved March 20, 1909, together with all Acts amendatory thereof and supplemental thereto and all Acts in conflict herewith are hereby repealed. Nothing herein shall be construed as affecting the provisions of the Act of June 16, 1913, establishing a State Mining Bureau."

PETITION—(OUT OF ORDER).

Senator Jones presented the following petition, out of the regular order, which was ordered printed in the Journal:

SAN JOSE, CALIFORNIA, April 24, 1915.

Honorable Herbert C. Jones, Senator Twenty-eighth District, and Honorable Frank H. Benson, Senator Twenty-seventh District.

GENTLEMEN: We, the undersigned, employees of the electric railway companies and residents of Santa Clara County, ask you to protect the industry through which we gain out living by passing the bills now before you providing for the taxation of automobiles engaged as public utilities in competition with the electric railways and giving power to counties and municipalities to regulate these automobiles by the granting of franchises.

The proposed tax of $12.50 per passenger seat is but a small part of the gross revenue of the automobiles, compared with that part of the gross revenues now paid in taxes to the State per passenger seat by the electric railways.

The electric railways are subject to State, county and municipal regulation and must secure franchises.

It is little enough in fairness to ask that automobiles operating in competition with them be required to obtain franchises.

If the electric railways, under the unfair competition of automobiles, compared with the railroads practically untaxed and unregulated, not only have to stop extending their service, but must abandon lines and reduce service now given, the communities served, the owners of the railroads and the employees must suffer.

Inasmuch as the largest single expenditure of the electric railways is for wages and, directly and indirectly, the largest part of its revenue goes to the payment of wages, we, as employees, have an important and direct interest in this matter most vital to us.

We, therefore, in behalf of the electric railway employees of Santa Clara County, larger in number than in any other single industry in this county, respectfully and earnestly urge you to vote for these bills.

MINORITY REPORT.

SENATE CHAMBER, SACRAMENTO, April 28, 1915.

MR. PRESIDENT: The undersigned, being a minority of the Committee on Municipal Corporations, respectfully submits the following minority report on Assembly Bill No. 816:

The committee has held several public hearings on this bill. It developed that the bill passed the Assembly by a clear majority and during the hearings in this committee the following facts were evolved:

From the humanitarian point of view the system of continuous duty must be absolutely condemned as out of keeping with modern civilization. There can be no reasonable defense of a system that divorces the husband and father from the wife and children for four days at a time; that compels a man to abuse his stomach 281 days a year; that deprives him of the privilege of a divine worship, of the opportunity of social intercourse with his fellowmen; that on account of the irregularity of hours is a bar to membership in any organization with a chance of attendance oftener than once every five months if the club holds monthly meetings. It makes physical wrecks in a few years of the picked men of the community. It has broken up hundreds of homes through the temptation the wife is subjected to in being forced to be alone 281 nights of the year. It is a relic of the barbarous past.

Under the two platoon system, firemen would average 12 hours duty for 351 days of the year. During these 12 hours they would not be absent from duty for any cause, except sickness. There would be no absence for meal leaves, no days off, no nights off. The day shift would do 10 hours' duty, and the night shift 14 hours. Once a week they would "swing", and the night shift would do the 10-hour turn while the day shift did the 14-hour turn. The fireman would sleep at home, eat his breakfast and supper at home and take his lunch with him to the fire house. He would be doing as all workingmen do. He would still have long hours, his occupation would still be a dangerous one, he would still be shorter lived than a clerk, but he would be living a more nearly normal existence than now. Fourteen hours would make a long night, but they now frequently have longer ones, and the 10-hour day would be a compensation.

Above all, their health would be greatly conserved and they could enjoy a few hours of home life each day. Surely, what they ask is not too much.

I, therefore, differ materially with the majority of this committee and recommend that the bill do pass.

SCOTT.

Assembly Bill No. 816 ordered on file for second reading.

He shall lay the same before the council at the same time with his estimates for the annual budget.

At the same time that it finally passes the annual budget, the council shall adopt an ordinance setting forth the proper levy in mills upon each dollar of the assessed valuation of all taxable property within the city necessary, in conjunction with the revenue derived from such other taxes, licenses and other sources of income as may be authorized by law and ordinance, to raise the amounts estimated to be required in the annual budget.

The city auditor shall thereupon certify to the county assessor the total of such levy.

If at any time the city reassume the right to assess property and collect taxes, the council shall levy the rate of taxation upon the valuation of the property in the city as fixed by the assessment roll prepared by the city assessor. CITY AUDITOR.

67. The city auditor shall be the general accountant and responsible fiscal officer of the city. He shall keep a complete set of books in the manner hereinafter prescribed. "SEC. 2. Section 3 of said Act is hereby amended to read as follows:

" 'Sec. 3. Said ordinance or resolution of intention shall be conspicuously posted for two days on or near the chamber door of said legislative body and published by two insertions in a daily or weekly newspaper published and circulated in said city, and designated by said legislative body for the purpose. If no such newspaper be so published and circulated in said city, such posting of said ordinance or resolution of intention shall be sufficient. The superintendent of streets shall thereupon cause to be conspicuously posted along all streets and parts of streets or other public places or rights of way where any work is to be done or improvement made, at not more than 300 feet apart, notices (not less than three in all) of the passage of such ordinance or resolution. Said notices shall be headed "Notice of street work" in letters not less than one inch in length, shall be in legible characters, and shall state the fact and date of the passage of said ordinance or resolution of intention, and the time and place fixed for the hearing of protests, and notify all persons interested to appear at said time and place with their objections to said improvement, if any they have, and briefly describe the proposed improvement, and refer to the ordinance or resolution of intention for further particulars. He shall also cause a notice of similar substance to be published by two insertions in a daily newspaper published and circulated in said city, or, if there is no such daily newspaper, then by two successive insertions in a weekly newspaper so published and circulated. If no such newspaper be so published and circulated in said city such notice shall be also posted on or near the chamber door of the legislative body of said city, and in two other public places in said city. Such posting and publication shall be completed at least ten days before the day set for the hearing of protests. The city clerk shall immediately upon the passage of said ordinance or resolution of intention mail, postage prepaid, to each property owner in the district to be assessed to pay the costs and expenses of the improvement, at his last known address as the same appears on the tax rolls of said city, or, where no address so appears, to the general delivery, a postal card, containing a notice which shall be substantially in the following form (filling blanks):

"'You are hereby notified that on the ______ day of ______, 19__, the legislative body of the city of ______, California, by virtue of the Street Improvement Act of 1913, passed an ordinance (resolution) of intention numbered ____, for the improvement of ______ street between ______ street and ______ street. The time for filing protests will expire on the ______ day of ______, 19__, and protests will be heard on the ______ day of ______, 19__, at the hour of ______ in the council chamber of said city.

"'Your property is within the assessment district for said improvement and will be assessed therefor. For further information you are referred to said ordinance and to the maps, profiles, plans and specifications on file in the office of the city engineer.

______

City Clerk.'

"'If any lots or parcels of land in the assessment district be assessed to 'unknown owners' on the tax rolls of said city, no such postal cards need be mailed to the owners thereof.

"'The city clerk shall immediately upon the completion of the mailing of said cards file in the office of the superintendent of streets an affidavit setting forth the time and manner of his compliance with this requirement; provided, that the failure of the city clerk to address said cards to any of the owners of said property, or to mail said cards, or the failure of the property owners to receive the same, shall in no wise affect the validity of the proceedings, or prevent the legislative body from acquiring jurisdiction to order the work; provided, however, that the legislative body shall not pass any ordinance or resolution ordering the work until such affidavit is made and filed as herein prescribed.'

"SEC. 3. Section 4 of said Act is hereby amended to read as follows:

"'SEC. 4. At or before the time fixed for the hearing, any person interested objecting to the proposed improvement or to the extent of the assessment district described in the ordinance or resolution of intention, may file a written protest with the clerk of said legislative body. Every protest must contain a description of the property in which each signer thereof is interested and set forth the nature of his interest therein and must be accompanied by the affidavit of some one of the signers thereof that each signature thereto is the genuine signature of the person whose name is thereto subscribed, and in case any signature is made by an agent, there must be attached to the protest the affidavit of the agent that he is duly authorized to sign such protest. Any protest not complying with the foregoing requirements shall not be considered by said legislative body. The clerk shall endorse on every such protest the date of its reception by him, and at the time fixed for the hearing or at any other time to which the hearing may be adjourned, he shall present to said legislative body all protests so filed with him. Before the hearing of said protests there shall be filed with such legislative body affidavits showing that the said notices have been posted and published as hereinbefore required and the said legislative body shall thereupon cause to be entered in its minutes an order reciting that notice of said hearing has been posted and published as required by law, and such order shall be prima facie evidence of the truth of the facts therein recited. The legislative body shall hear said protests at said meeting, or at any time to which the hearing thereof may be continued, and pass upon the same, and its decision shall be final and conclusive; *provided, however,* if such protests are against the proposed improvement, and the legislative body finds that such protests are signed by the owners of a majority of the frontage of the property fronting on the streets or parts of streets within the assessment district for such improvement, all further proceedings shall be stayed and barred for six months from and after the filing of such majority protests, unless the owners of a majority of such frontage shall in the meantime petition for the said improvement to be made. If such protests are not signed by a majority of the owners of such property, and such protests are sustained, no further proceedings shall be had under said ordinance or resolution of intention, but a new ordinance or resolution of intention for the same improvement may be passed at any time. If such protests are denied, the proceedings shall continue as if such protests had not been made'.

"SEC. 4. Section 8 of said Act is hereby amended to read as follows:

"'SEC. 8. At or before the time set for the hearing of petitions for damages any person owning property, and claiming that the same will be damaged by said proposed improvement, shall file with the superintendent of streets, who shall transmit the same to the commission, a petition showing the fact of such ownership, a description of the property claimed to be damaged, its market value, and the amount of damages which it is claimed such property will sustain by the proposed improvement, and the post office address of such petitioner, or his agent. Every such petition shall be verified by the oath of the petitioner or his agent. After considering the petitions filed as herein provided, and after hearing the petitioners who may appear, and after viewing the location of the proposed improvement and the property affected thereby, said commission shall proceed to determine the amount of damages, if any, which will be sustained by each such petitioner because of the proposed improvement. Any property owner who fails to file any such petition shall be deemed to have waived his right to a hearing with respect to any damages to any property owned by him, and to object to the amount of such damages as fixed by said commission'.

"SEC. 5. Section 23 of said Act is hereby amended to read as follows:

"'SEC. 23. The legislative body of any city shall have the power, in its discretion, to determine that serial bonds shall be issued in the manner and form hereinafter provided to represent assessments of twenty-five dollars or more for the cost and expenses of any work or improvement authorized by this Act. Said serial bonds shall extend over a period not to exceed twenty-five years from the second day of January next succeeding the issuance of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year after their date until the whole is paid; *provided*, that if the period over which said bonds are to extend exceeds ten years, one-tenth part of the principal sum thereof shall be payable by coupon on the second day of January of each of the last ten years of said period. The interest on said bonds shall be payable semi-annually by coupon on the second days of January and July, respectively, of each year, at the rate of not to exceed ten per cent. per annum on all sums unpaid, until the whole of said principal and interest is paid. Said bonds and interest thereon shall be paid at the office of the city treasurer of said municipality, who shall keep a fund designated by the name of said bonds, into which he shall receive all sums paid him for the principal of said bonds and the interest thereon, and from which he shall disburse such sums upon the presentation of said coupons; and under no circumstances shall said bonds or the interest thereon be paid out of any other fund. Said city treasurer shall keep a register in his office which shall show the series, number, date, amount, rate of interest, payee and indorsees of each bond, and the number and amount of each coupon of principal or interest paid by him, and shall cancel and file each coupon so paid'.

"SEC. 6. Section 24 of said Act is hereby amended to read as follows:

"'SEC. 24. Whenever the legislative body of any city shall determine that serial bonds shall be issued to represent the cost and expenses of any proposed work or improvement under this Act, it shall so declare in the ordinance or resolution of intention to do said work, and shall specify the rate of interest which they shall bear and the period of time over which they are to run, and said ordinance or resolution shall also state that a bond will issue to represent each assessment of twenty-five dollars or more remaining unpaid at the expiration of thirty days after the first publication or posting of the notice of the recording of the assessment by the superintendent of streets. Whenever it shall have been determined, as provided in section 23 of this Act, that serial bonds shall be issued to represent assessments amounting to twenty-five dollars or over, the superintendent of streets shall, forthwith after the full expiration of thirty days from the date of the first publication of the notice of the recording of the assessment roll, or forthwith after the full expiration of thirty days from the recording of a reassessment in the event that such be made, and after all previous payments have been credited on such re-assessment, make and certify to the city treasurer a complete list of all assessments unpaid, which amount to twenty-five dollars or over upon any assessment or diagram number'.

"SEC. 7. Section 25 of said Act is hereby amended to read as follows:

"'SEC. 25. Upon receiving the list of assessments mentioned in the preceding section, the city treasurer shall thereupon make out and sign a separate bond representing upon each lot or parcel of land upon said list the total amount of the assessments, or re-assessments, as the case may be, as thereon shown. And if said lot or parcel of land is described upon said assessment and diagram by its number or block, or both, upon the official map of said municipality, or upon any map on file in the office of the county recorder of the county in which said municipality is situated, then it shall be in said bond a sufficient description of said lot or parcel of land to designate it by said number or block, or both, as it appears on said official or recorded map. Said bond shall be substantially in the following form:

IMPROVEMENT BOND.

Series ------

$----------- No.-----------

Under and by virtue of and pursuant to the provisions of ------------ (title of Act), I, out of the fund for the above designated improvement bonds, series ______, will pay to bearer the sum of ____________ ($________) dollars with interest at the rate of ______ per cent per annum, as is hereinafter specified, at the office of the city treasurer of the city of ____________, State of California. This bond is issued to represent an assessment for ____________ in the city of ____________, as the same is more fully described in the assessment therefor. Its amount is the amount assessed in said assessment against the lot numbered ______ therein and in the diagram attached thereto, and which now remains unpaid; but until paid, with accrued interest, is a first lien upon the property affected thereby, as the same is described herein, and in said recorded assessment with its diagram, to wit: the lot or parcel of land in the city of ________, county of ________, State of California, described as follows:

____

This bond is payable exclusively from said fund, and neither the city of ________ nor any officer thereof is to be holden otherwise for its principal or interest. The term of this bond is ________ years from January second, 19___, and at the expiration of said time the whole sum then unpaid shall be due and payable; but on the second day of January of each year after the date hereof, an even annual proportion of its principal is due and payable upon presentation of the coupon therefor, until the whole is paid, with accrued interest, at the rate of ______ per cent per annum.

The interest is payable semi-annually, on the second day of January and July in each year hereafter upon presentation of the coupons therefor, the first of which is for the interest from date to the second day of ________, 19___, and thereafter the interest coupons are for the semi-annual interest.

Should default be made in the first, or any succeeding payment of the principal, or in any payment of interest, by the owner of said lot or parcel of land, the holder of this bond is entitled to declare the whole amount unpaid to be due and payable, and to have said lot or parcel of land advertised and sold forthwith, in the manner provided by law.

Dated at said city of ________, this ________ day of ________ in the year one thousand nine hundred and ________.

____

City Treasurer of the city of ________

"'No mistake or error in the description in the bond of the lot assessed shall affect the validity or lien of the bond, unless the property so affected be such that it can not be identified, and in such event the holder of such bond may have the same corrected upon application to the city treasurer and the officer or board who made the assessment to represent which such bond was issued.

"'In case the amount of the unpaid assessment or re-assessment upon any lot or parcel of land shall be less than twenty-five dollars, then the same shall be collected as is provided in this Act. If any person, or his authorized agent, shall at any time before the issuance of the bond for said assessment or re-assessment upon his lot or parcel of land present to the city treasurer his affidavit, made before a competent officer, that he is the owner of a lot or parcel of land assessed, accompanied by the certificate of a searcher of records that he is such owner of record, and shall, with such affidavit and certificate, notify said treasurer in writing that he desires no bond to be issued for the assessment upon said lot or parcel of land, then no such bond shall be issued therefor and the street superintendent shall retain his right for enforcing collection of said assessment or re-assessment as if said lot or parcel of land had not been so listed by the street superintendent. The bonds so issued by said treasurer shall be payable to the bearer, and shall be serial bonds as hereinbefore described, and shall bear interest at the rate specified in the resolution of intention to do said work. They shall have annual coupons attached thereto, payable in numerical order on the second day of January in each year after the date of the bonds until all are paid, or if the term of said bonds be more than six years, then said coupons shall be payable on the second day of January of each of the last [illegible] years of the term of the bonds; and each coupon shall be for an even annual proportion of the principal of the bond. They shall have semi-annual interest coupons thereto attached, the first of which shall be payable upon the second day of January or July, as the case may be, next after its date, and shall be for the interest accrued at that time, and the rest of which shall be for the semi-annual interest accruing from the second day of January or July, as the case may be. The owner of, or any person interested in, any lot or parcel of land upon which a bond has been issued under the terms of this Act, may at any time pay off such bond and discharge his land from the lien of the assessment, by paying to the city treasurer for the holder of such bond the amount then unpaid on the principal sum thereof, and all interest thereon which has accrued and is unpaid, together with the semi-annual installment of interest which will next become due thereafter, and in addition thereto interest for one year at the rate specified in the bond upon the unpaid amount of the principal. The treasurer shall thereupon make an entry upon his bond register that such bond has been paid in full. When all the coupons of principal and interest are paid or the bond is surrendered or canceled, the city treasurer shall report the fact to the street superintendent, who shall forthwith indorse the same on the margin of the record of the assessment to the credit of which the same is paid.'"

Thereupon the superintendent of streets shall record the return so made in the margin of the record of the warrant and assessment, and also the original contract referred to therein, if it has not already been recorded at full length in a book to be kept for that purpose in his office, and shall sign the record. For the convenience of owners of property assessed under the provisions of this Act the superintendent of streets shall thereupon make and deliver to the city tax collector, or other person authorized to collect taxes for said city, a complete list of all unpaid assessments, which list shall contain such description of each lot or parcel of land assessed as will enable such tax collector or such other person to identify such lot or parcel of land; the tax collector or such other person shall [illegible] write, print or stamp upon, or furnish with the next tax bill rendered for taxes levied upon each of said lots or parcels of land a statement that there is an unpaid assessment or a bond outstanding for a public improvement against the property described in said tax bill as the case may be. "SEC. 12. Said action shall in all respects be subject to and governed by such provisions of the Code of Civil Procedure now existing or that may be hereafter adopted, as may be applicable thereto, except in the particulars otherwise provided for in this Act.

"SEC. 13. When all parties defendant to the action have answered, or have been served with summons, and their default entered, the plaintiff or any party defendant to the action whose default has not been so entered, may, upon five days' notice to the parties, except defendants in default, move the court to set the action for trial. If, upon the hearing of said motion, a trial by jury or by the court without a jury is not demanded by the defendants, or any of them, or by the plaintiff, such trial shall be deemed to be waived and the court must appoint three disinterested persons referees, to ascertain the compensation to be paid to such defendants so waiving trial by a jury, or by the court without a jury. Such referees must be residents of the county where such improvement is to be made, and over the age of twenty-one years, and must take and file with the court an oath to discharge their duties faithfully and impartially. If any of such referees fail to qualify, or resign, or is removed by order of court, or is or becomes unable to act, the vacancy so created shall be filled by the court.

"SEC. 14. The referees shall at once proceed to view the lands sought to be condemned, and ascertain the compensation proper to be paid to such of the parties interested in each parcel thereof as have waived a trial by jury, or by the court, and they shall also ascertain the benefit to be derived by each parcel of property in the district to be assessed to pay the same. They shall have power to examine witnesses under oath, to be administered by any of them, and may have subpenas issued by the clerk of the court, requiring the attendance of witnesses, or the production of evidence before them. They shall make and file with the court a written report of their findings, and of their necessary expenses, within thirty days after the date of their appointment; *provided, however*, that the time so allowed may be extended, upon good cause shown, by the court or judge thereof, but such extension shall not exceed ninety days, *and provided, further*, that if any vacancy in the referees is created and filled as provided in section 13 of this Act, or if new referees are appointed, or if a new report from the same referees is ordered, as provided in section 16 of this Act, the time herein specified for the filing of such report shall be deemed to be thirty days from the date of the order filling such vacancy, or appointing new referees, or ordering a new report from the same referees, and the same may be extended accordingly, as above provided. Any two of such referees who agree thereto, may make such report.

"SEC. 15. No improvements placed upon the property proposed to be taken, subsequent to the date of filing suit shall be included in the assessment of compensation or damages.

"The referees, or court, or jury, as the case may be, shall find separately:

"*Second*—If any parcel of property sought to be condemned is only a part of a larger parcel, the damages which will accrue to the portion not sought to be condemned, and to each separate estate or interest therein, by reason of its severance from the portion sought to be condemned, and the construction of the improvement in the manner proposed by the plaintiff. Such damages must be fixed irrespective of any benefit from such improvement.

"*Third*—The proportion of the total damages allowed and costs and expenses incurred which are assessed against each parcel of property benefited by the proposed improvement in proportion to the benefits to be derived from said improvement.

"*Fourth*—The estimated cost of such improvement and the proportion thereof assessed against each parcel of property benefited by the proposed improvement in proportion to the benefits to be derived from the same.

"SEC. 16. Upon the filing of such report the court must, upon motion of any party, appoint a day for hearing the same not less than twenty days thereafter. Notice of the time and place of such hearing must be given at least ten days before the time so appointed, be served on all the other parties except defendants whose default has been entered. The plaintiff or any defendant who has appeared may file exceptions in writing to said report, specifying the grounds upon which such exceptions are based, at any time before and not less than one day prior to the hearing, and any such party so filing exceptions to said report may appear at the hearing of said report and contest the same. At any time before and not less than one day prior to the hearing, any person not a party to the action, owning or having an interest in any property included within said assessment district, may intervene in the action, and file his exceptions in writing to said report, specifying the grounds upon which such exceptions are based; and any such person so intervening may appear and contest the said report, and introduce evidence in support of such exceptions. After hearing the report and any exceptions thereto, the court may confirm the report, or may modify it and confirm it as modified, or may set it aside and order a new report from the same referees, or from new referees to be appointed. If new referees are appointed, the same proceedings shall be had as upon the first reference.

"If there be a trial of the action by a jury, or by the court without a jury, the clerk of the court must give notice of the time and place of such trial at least ten days before the time so appointed by serving notice on all the other parties except defendants whose default has been entered. At any time before and not less than one day prior to the trial, any person not a party to the action, having an interest in any property included within said assessment district, may intervene in the action, and, upon the trial thereof, may appear and introduce evidence relative to the compensation and damages to be awarded to the defendants therein. The cost of the service of the notices required by this section shall be paid by the plaintiff and allowed as costs in the action.

"When a time has been appointed for hearing the report of the referees, or for the trial of the action, and notice thereof has been given by the clerk as in this section provided, if the hearing or trial be postponed or continued by the court to any subsequent date, no such notice need be given by the clerk of the hearing or trial upon any such postponement or continuance.

"SEC. 17. Upon the confirmation of the report of the referees, or receipt of the verdict of the jury, or the filing of the findings of the court, the court shall make and enter an interlocutory judgment in accordance with such report, verdict or findings, adjudging that upon payment to the respective parties or into court for their benefit, of the several amounts found due them as compensation, and of the costs allowed to them, the property described in the petition shall be condemned to the use of plaintiff, and dedicated to the use specified in the complaint. The court shall allow to the referees as costs to be paid by the plaintiff a reasonable compensation for their services, the amount of which compensation shall be fixed by the court upon the hearings of the report and their necessary expenses.

"SEC. 18. An appeal may be taken from such interlocutory judgment within thirty days from the entry thereof and from any order granting or denying a new trial within ten days after the entry thereof.

"SEC. 19. Such interlocutory judgment shall be lawful and sufficient condemnation of the land or property to be taken, or of the right to damage the same in the manner proposed upon the payment of the amount of such judgment and all costs which shall be taxed as in other civil cases; provided, that in any case where defendant recovers no damages, no costs shall be taxed, such judgment or judgments shall be final and conclusive as to the damages caused by such improvement unless appealed from, and no appeal from the same shall delay proceedings, if such district shall pay into court for the owners and parties interested, as directed by the court, the amount of the judgment and costs, and such district after making such payment into court, shall be liable to such owner or owners or parties interested for the payment of any further compensation which may at any time be finally awarded to such parties so appealing in said proceedings, and his or her costs, and shall pay the same on the rendition of judgment therefor, and abide any order of the court in relation to the matter in controversy. In case of an appeal by any party to the proceedings, the money so paid into the Superior Court by such district, as aforesaid, shall remain in the custody of said Superior Court until the final determination of the proceedings. If the owner of the land, real estate, premises or other property accepts the sum awarded by the court, he shall be deemed thereby to have waived conclusively an appeal and final judgment may be rendered in the Superior Court as in other cases.

"SEC. 20. The court, upon proof that just compensation so found by the jury, or by the court in case the jury is waived, together with the costs, has been paid to the person entitled thereto, or has been paid into the court as directed by the court, shall enter an order that the district shall have the right at any time thereafter to take possession of or damage the property in respect to which such compensation shall have been so paid or paid into court as aforesaid, and thereupon the title to any property so taken shall be vested in fee simple in such district.

"SEC. 21. In case the damages or amount of compensation for such area, together with the estimated costs of the improvement, amount to more than the maximum amount of benefits which will be derived from said improvements, the court shall dismiss such proceedings and in such case a judgment shall be rendered for the costs of said proceedings against said district, and no further proceedings shall be had or done therein, and upon the payment of the costs said organization shall be dissolved by decree of said court.

"SEC. 22. Any person or corporation claiming to be entitled to any money ordered paid by the court, as provided by this Act, may apply to the court therefor, and upon bringing evidence satisfactory to the court that he is entitled to the same, the court shall make an order directing the payment to such claimant of the proportion of such money as he or it may be found entitled to; but if upon such application, the court or judge thereof shall decide that the title in the land, real estate or premises specified in the application of such claimant is in such condition as to require that an action be commenced to determine the title of claimants thereto, it shall refuse such order until such action is commenced and the conflicting claimants to such land, real estate or premises be determined according to law.

"SEC. 23. As soon as there is sufficient money in the hands of the county treasurer, in the special fund devoted to the proposed improvement, to pay the amounts awarded to the defendants by the interlocutory judgment in the action of condemnation, or such parts thereof as have not been paid by offset against assessments, as hereinbefore provided, the said amounts shall be paid to the parties entitled thereto, or into court for their benefit. On satisfactory proof being made to the court of payment of the amounts awarded by the interlocutory judgment to the respective parties entitled thereto, or into court for their benefit, it shall direct the interlocutory judgment to be satisfied, and shall make and enter a final judgment, condemning the lands described in the complaint to the use of the plaintiff for the purposes specified in such complaint.

"SEC. 24. Upon the entering of such interlocutory judgment, the clerk of said court shall immediately prepare a transcript which shall contain a list of all the names of persons and corporations benefited by said improvement, and the amount of benefit derived by each respectively, and shall duly certify the same, together with a list of the land benefited by said improvement, belonging to each person or corporation, and shall file the same with the auditor of the county, who shall immediately enter the same on the assessment rolls as commercial waterway taxes, or such percentage thereof each year as may be designated by the Board of Commissioners of said commercial waterway district, until the whole thereof is collected, and such taxes shall be collected at the same time, and in the same manner as county taxes, and when collected shall be paid into the county treasury for the benefit of said district.

"SEC. 25. The provisions of the Political Code of this State prescribing the manner of levying and collecting taxes and the duties of the several county officers with respect thereto, are, so far as they are applicable and not in conflict with the specific provisions of this Act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this Act.

"SEC. 26. The owner of any property assessed, who is entitled to compensation under the award made by the interlocutory judgment, may, at any time after such assessment becomes payable, and before the sale of said property for non-payment thereof demand that such assessment, or any number of such assessments, be offset against the amount to which he is entitled under said judgment. Thereupon, if said amount is equal to or greater than such assessments, including any penalties and costs due thereon, the assessments shall be marked "Paid by offset," and if the said amount is less than the assessments and any penalties and costs due thereon, the person demanding such offset shall at the same time pay the difference in money, and the assessments shall, on such payment, be marked paid, the entry showing what part thereof is paid by offset and what part in money. In either case, as a condition of the offset, such person must execute and deliver duplicate receipts for such part of the amount due him under said interlocutory judgment as is offset against such assessments, penalties, and costs. One of said duplicate receipts shall be filed by the tax collector in his office, the other shall be filed with the clerk of the Superior Court, and on such filing, the district shall be entitled to a satisfaction *pro tanto* of said interlocutory judgment.

"SEC. 27. The treasurer of the county shall be the repository of all the funds of the district, and the county treasurer is authorized and required to receive and receipt for the same and to place the same to the credit of the district. He shall be responsible upon his official bond for the safekeeping and disbursement, in the manner herein provided, of these and all other moneys of the district held by him.

"SEC. 28. The treasurer shall pay out of the same only upon warrants of the Board of Commissioners, signed by the president and attested by the secretary. The treasurer shall report in writing as often as requested by the Board of Commissioners the amount of money in the fund, the amount of receipts since his last report, and the amount paid out. Such report shall be verified and filed with the secretary of the board.

"SEC. 29. In the event of the dismissal of said proceedings, and the rendition of a judgment against said district as hereinbefore provided, said Commercial Waterway Commissioners shall levy a tax upon all real estate within said district, taking as a basis the last equalized assessment of said real estate for state and county purposes sufficient to pay said judgment and the costs of levying said taxes and shall cause said tax roll to be filed in the office of the clerk of the [illegible] court in which said judgment was rendered. If such tax is not paid within sixty days after the filing of the said tax roll, the court shall, upon the application of any party interested, direct said real estate to be sold in payment of said tax. Said sale to be made in the same manner and by the same officer as is or may be provided by law for the sale of real estate for taxes for general purposes, and the same right of redemption shall exist as in the sale of real estate for the payment of taxes for general purposes.

"SEC. 30. Such estimate shall be for the succeeding year and the amount so estimated shall be certified by the Board of Commissioners, to the auditor of the county in which said district is located on or before said date, and the amount thereof shall be levied against and apportioned to the land of said district benefited by said improvement in proportion to the maximum benefit originally assessed, and such amount shall be added to the general taxes against said lands and collected therewith.

The Board of Commissioners of said district shall elect one of their number chairman and one secretary, and shall keep minutes of all their meetings and may issue warrants of such district in payment of all claims or indebtedness against said district. Such warrants shall be in form and substance the same as county warrants or as near the same as may be practical, and shall draw the legal rate of interest from the date of their presentation to the treasurer for payment, as hereinafter provided, and shall be signed by the chairman and attested by the secretary of said board; *provided*, than no warrants shall be issued by said Board of Commissioners in payment of any indebtedness of such district for less than the face or par value.

"SEC. 35. "SEC. 36. Said bonds shall be numbered from one upward consecutively, and be in denominations of not less than one hundred dollars nor more than one thousand dollars. They shall bear the date of issue and shall be made payable to the bearer not more than twenty years nor less than ten years from date of their issue, and to bear interest at the rate not exceeding seven per cent. per annum, payable semi-annually, with coupon attached for each interest payment. "SEC. 37. Said bonds may be exchanged at not less than par value for an equal amount of the warrants of the district issuing bonds.

"SEC. 38. Ten years before said bonds shall become due, the Commercial Waterway Commissioners of such district issuing them are hereby authorized and required annually to levy assessments sufficient to liquidate said bonds at maturity. Such assessments shall be collected by the county [illegible] collector, paid to the county treasurer and kept as a separate fund for the sole purpose of liquidating said bonds in accordance with the provisions of the following section.

"SEC. 39. "SEC. 40. It shall be the duty of such Commercial Waterway Commissioners annually to levy an assessment sufficient for the payment of the coupons hereinbefore mentioned as they fall due. Said coupons shall be receivable for all assessments as warrants drawn upon the funds of the district issuing bonds under the provisions of this Act, and when presented to the county treasurer and no funds are in the treasury to pay said coupons, it shall be his duty to endorse such coupons as presented for payment in the same manner as other warrants upon the funds of such district are endorsed and thereafter said coupons shall bear interest at the same rate as other warrants so presented and endorsed.

"SEC. 41. Before the bonds are delivered to the purchaser they shall be presented to the county treasurer, who shall register them in a book kept for the purpose and known as the 'bond register,' in which register he shall enter the number of each bond, the date of issue, the maturity, amount and rate of interest, to whom and when payable, and the proceeds derived from the sale of said bonds shall in all cases be paid by the purchaser thereof to the county treasurer.

"SEC. 42. Said notice shall be published two weeks consecutively and said warrants shall be called in and paid in the order of their endorsement.

"SEC. 43. Upon the trial of any question of issue by a jury under the provisions of this Act, the trial court may in its discretion submit all questions to be found to the jury in the form of a verdict on all such questions to be found by the jury thereon.

"SEC. 44. Fees for services of all process necessary to be served under the provisions of this Act shall be the same as for like services in other civil cases or that is and may be provided by law.

In case such services are rendered by said board in the establishment and construction of said improvement, the amount thereof so allowed by the court shall be deemed to be a part of the cost of the construction and establishment of said improvement and in case such compensation to be allowed by the court shall be for services rendered by said board in the repair or maintenance of such improvement, such allowance shall be added to the actual cost of maintenance of such system: *provided*, that any person interested therein may file objections to the allowance asked for, either in whole or in part, such claims so filed shall not be passed upon or allowed by the court until the expiration of thirty days from the filing thereof. Said Board of Commissioners, or a member thereof, presenting such claims or allowances shall, at the time of filing thereof in the court, post notices in at least four public places within said district, which notice shall set forth therein the fact that an application for allowance has been filed in said court giving the date of filing thereof and the amount of allowance applied for and demanded, if any, and all persons having an interest therein shall file objections in said court, if any they have, to the allowance of said claim or any portion thereof within thirty days from the filing of such application for allowance, and the court shall hear said application and the objections thereto, if any may be filed, and shall in its discretion make such allowance and in such amount as it may deem to be just in the premises, and the same shall be paid, as other claims against said district are paid.

"SEC. 46. The court may compel the performance of the duties imposed by this Act and may in its discretion on proper application therefor, issue its mandatory injunction for such purpose.

"SEC. 47. Nothing herein contained shall be construed as in any way affecting the plenary power of any incorporated city, city and county or town, or municipal or county water district to provide for a water supply for such public corporation, or as affecting the absolute control of any properties of such public corporations necessary for such water supply, and nothing herein contained shall be construed as vesting any powers of control over such properties in said commercial waterway district, or in any person, officer, board or commission referred to in this Act."

SENATE CONCURRENT RESOLUTION NUMBER TWENTY-TWO.

Relative to the correction of erroneous reports regarding California's experience under woman suffrage.

WHEREAS, The issue of woman suffrage is pending in many states of the Union; and,

WHEREAS, The operation and effect of the enfranchisement of women in California is being constantly misrepresented in such states and used there as arguments in opposition to the granting of suffrage to women; therefore, be it

Resolved by the Senate of the forty-first session of the Legislature of the State of California, the Assembly concurring, That the experience of this State amply justifies the adoption of woman suffrage by the people in October, 1911; and, be it further

Resolved, That so successful has been the operation and effect of granting political rights to women equal to those held by men, that it is generally conceded that were the question to be again voted on by the people of this State, it would be re-endorsed by an overwhelming majority; and, be it further

Resolved, That the adoption of woman suffrage by California is one of the important factors contributing to the marked political, social and industrial advancement made by our people in recent years, and that any disparagement of the cause of woman suffrage attempted elsewhere on the ground that woman suffrage is not satisfactory to this State, has no basis in fact, and is signally disproved by the acknowledged intelligence and discrimination shown by women voters in the settling of our great political and industrial problems at the polls.

SENATE CONSTITUTIONAL AMENDMENT NUMBER TWENTY-SIX.

A resolution to propose to the people of the State of California an amendment to section 7½ of article XI of the Constitution of the State of California, relating to charters of counties and amendments to such charters and to the surrender thereof.

The Legislature of the State of California at its forty-first regular session commencing on the fourth day of January, 1915, two-thirds of all the members elected to each of the two houses of said Legislature voting therefor, hereby proposes to the people of the State of California that section 7½ of article XI of the Constitution of the State be amended so as to read as follows:

SEC. 7½. Any county may frame a charter for its own government consistent with and subject to the Constitution (or, having framed such a charter, may frame a new one,) and relating to matters authorized by provisions of the Constitution, by causing a board of fifteen freeholders, who have been for at least five years qualified electors thereof, to be elected by the qualified electors of said county, at a general or special election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by the vote of three-fifths of all the members of the board of supervisors of such county, declaring that the public interest requires the election of such board for the purpose of preparing and proposing a charter for said county, or in pursuance of a petition of qualified electors of said county as hereinafter provided. Such petition, signed by fifteen per centum of the qualified electors of said county, computed upon the total number of votes cost therein for all candidates for Governor at the last preceding general election at which a governor was elected, praying for the election of a board of fifteen freeholders to prepare and propose a charter for said county, may be filed in the office of the county clerk. It shall be the duty of said county clerk, within twenty days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of electors of the county, whether said petition is signed by the requisite number of qualified electors. If required by said clerk, the board of supervisors shall authorize him to employ persons specially to assist him in the work of examining such petition, and shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the result thereof, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors; *provided*, that if a general election shall occur in said county not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid, or such presentation of said petition to said board of supervisors, said board of freeholders may be elected at such general election. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county offices, to be voted for at general elections. It shall be the duty of said board of freeholders, within one hundred and twenty days after the result of such election shall have been declared by said board of supervisors, to prepare and propose a charter for said county, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the county clerk of said county and the other in the office of the county recorder thereof. Said board of supervisors shall thereupon cause said proposed charter to be published once in a daily newspaper of general circulation, printed, published and circulated in said county; *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published once in a weekly newspaper, of general circulation, printed, published and circulated in such county; *and provided*, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county, and the publication or the posting of such proposed charter shall be made within fifteen days after the filing of a copy thereof as aforesaid in the office of the county clerk. The board of supervisors shall cause copies of such charter to be printed in convenient pamphlet form, and shall, until the day fixed for the election upon such charter, advertise in one or more newspapers of general circulation, published in said county, a notice that such copies may be had upon application therefor. If there is no newspaper published within the county, then such notice shall be posted by the county clerk in three public places in said county and on or near the entrance to at least one public schoolhouse in each school district within the county. Said proposed charter shall be submitted by said board of supervisors to the qualified electors of said county at a special election held not less than thirty days nor more than sixty days after the completion of such publication or posting such charter; *provided*, that if a general election shall occur in said county not less than thirty days nor more than sixty days after the completion of such publication or after such posting, then such proposed charter may be so submitted at such general election. If a majority of said qualified electors voting thereon at such general or special election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the legislature, if it be in regular session, otherwise at its next regular session, or it may be submitted to the legislature in extraordinary session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such county and shall become the organic law thereof relative to the matters therein provided, and supersede any existing charter framed under the provisions of this section and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to the matters provided in such charter. A copy of such charter, certified and authenticated by the chairman and clerk of the board of supervisors under the seal of said board and attested by the county clerk of said county, setting forth the submission of such charter to the electors of said county, and its ratification by them, shall, after the approval of such charter by the Legislature, be made in duplicate, and filed, one in the office of the Secretary of State and the other, after being recorded in the office of the recorder of said county, shall be filed in the office of the county clerk, and thereafter all courts shall take judicial notice of said charter.

The charter, so ratified, may be amended by proposals therefor submitted by the board of supervisors of the county to the qualified electors thereof at a general or special election held not less than thirty days nor more than sixty days after the publication of such proposals once in a daily newspaper of general circulation, printed, published and circulated in such county; *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed amendments shall be published once in a weekly newspaper, of general circulation, printed, published and circulated in such county; provided, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed amendments shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county. The board of supervisors shall cause copies of such proposed amendments to be printed in convenient pamphlet form, and shall until the date fixed for the election upon such proposed amendments, advertise in one or more newspapers of general circulation published in said county, a notice that such copies may be had upon application therefor. If there is no newspaper published within the county, then the county clerk shall post notices the same as is required herein before the adoption of a proposed charter. If a majority of such qualified electors voting thereon, at such general or special election, shall vote in favor of any such proposed amendment or amendments, or any amendment or amendments proposed by petition as hereinafter provided, such amendment or amendments shall be deemed to be ratified, and shall be forthwith submitted to the legislature, if it be in regular session, otherwise at its next regular session, or may be submitted to the legislature in extraordinary session, for approval or rejection as a whole, without power of alteration or amendment, and if approved by the legislature, as herein provided for the approval of the charter, such charter shall be amended accordingly. A copy of such amendment or amendments shall, after the approval thereof by the legislature, be made in duplicate, and shall be authenticated, certified, recorded and filed as herein provided for the charter, and with like force and effect. Whenever a petition signed by ten per centum of the qualified electors of any county, computed upon the total number of votes cast in said county for all candidates for Governor at the last general election, at which a Governor was elected, is filed in the office of the county clerk of said county, petitioning the board of supervisors thereof to submit any proposed amendment or amendments to the charter of such county, which amendment or amendments shall be set forth in full in such petition, to the qualified electors thereof, such petition shall forthwith be examined and certified by the county clerk, and if signed by the requisite number of qualified electors of such county, shall be presented to the said board of supervisors, by the said county clerk, as hereinbefore provided for petitions, petitions for the election of boards of freeholders. Upon the presentation of said petition to said board of supervisors, said board must submit the amendment or amendments set forth therein to the qualified electors of said county at a general or special election held not less than thirty days nor more than sixty days after the publication or posting of said proposed amendment or amendments in the same manner as hereinbefore provided in the case of the submission of any proposed amendment or amendments to such charter, proposed and submitted by the board of supervisors. In submitting any such charter, or amendments thereto, any alternative article or proposition may be presented for the choice of the electors, and may be voted on separately without prejudice to others.

Every special election held under the provisions of this section, for the election of boards of freeholders or for the submission of proposed charters, or any amendment or amendments thereto, shall be called by the board of supervisors, by ordinance, which shall specify the purpose and time of such election and shall establish the election precincts and designate the polling places therein, and the names of the be published three times in a daily newspaper, or twice in a weekly newspaper, if election officers for each such precinct. Such ordinance, prior to such election shall there be no such daily newspaper, printed, published and circulated in said county: *provided*, that if no such daily or weekly newspaper be printed or published in such county, then a copy of such ordinance shall be posted by the county clerk in three public places in such county and in or near the entrance to at least one public schoolhouse in each school district therein. In all other respects, each such election shall be held and conducted, the returns thereof canvassed and the result thereof declared by the board of supervisors in the same manner as provided by law for general elections. Whenever boards of freeholders shall be elected, or any such proposed charter, or amendment or amendments thereto, submitted, at a general election, the general laws applicable to the election of county officers and the submission of propositions to the vote of electors, shall be followed in so far as the same may be applicable thereto.

MESSAGE FROM THE GOVERNOR—OUT OF ORDER

On motion of Senator Wolfe the following message from the Governor was taken up and read out of the regular order:

To the Senate of the State of California:

In accordance with section 16 of article IV of the constitution, I return, herewith, without my approval, Senate Bills [illegible] and [illegible].

The two bills are alike but amend different sections of two separate laws. They provide substantially that no city, town or municipal corporation shall incur indebtedness for public improvements which shall in the aggregate exceed twenty-five per cent of the assessed value of the taxable property, and shall any city, town or municipal corporation incur for public improvements, other than for the purchase or original construction of public works for supplying its inhabitants with water, an indebtedness which shall, in the aggregate, exceed fifteen per cent of the assessed value of the taxable property.

The law, as it has existed for many years, authorizes an indebtedness for public works and improvements aggregating fifteen per cent of the taxable property, and the amendment increases this percentage to twenty-five per cent, when the increase may be required in the purchase or construction of public works for supplying the inhabitants with water.

No measure pending before the present Legislature has evoked such a storm of telegraphic protest as these two bills. The brokers of the State, those engaged in dealing in securities and generally those connected with finance, including banks, are unanimous in opposition. The savings banks of San Francisco, those of Los Angeles, and many of the interior, vehemently assert that the bills, if they become laws, will depreciate the securities of our State and particularly outstanding bonds of our cities, and those which may be hereafter issued.

Briefly stated, the argument in objection is that for many years the law of our State has fixed as the maximum percentage of indebtedness that may be incurred fifteen per cent. of the taxable property; that upon the faith of this law, bonds of municipalities have been issued and sold; that bonds that might be issued hereafter, in excess of this fifteen per cent., would be on a parity with those heretofore issued and a twenty-five per cent. indebtedness, even though the increase from fifteen were for the construction of water works, would be an excessive indebtedness to be permitted to municipalities. In this connection the laws of various states are cited and the maximum indebtedness permitted to be incurred by cities is claimed to be much less than that which has been permitted in California under the present law.

It is asserted too, that the increase permitted by the proposed laws would lead to greater prodigality in the issuance of bonds by municipalities and that already the municipalities of our State have been sufficiently prodigal in this direction. In corroboration of the views of these objectors, telegrams have been sent me from the various bond houses and banks in New York and Chicago dealing in securities, and I think I am well within the fact, when I say that the protests from California and the east embrace nearly all brokers and banks interested in California bonds. Among others protesting are very many individuals who are interested neither as brokers nor bankers; but who view with the utmost concern any increase in municipal indebtedness.

With many of the arguments presented I have little sympathy. When brokers put upon the market the securities of public utilities that are of doubtful value, when these same brokers and others interested in public utilities demand the right to bond public service corporations for practically the entire value of the property of their corporations, their protests against our cities bonding themselves for twenty-five per cent. of the assessed value of taxable property carry little weight. It is a matter of record in this State, that many of our public service corporations have asked the right to issue securities equaling in amount seventy-five per cent. and upwards, of the value of their corporate property. A city, with its public improvements, offers as security not only the public improvement, but all of the other property of the city; and to assert that bonding a city to twenty-five per cent. of its taxable property, when included is the very utility for which the bonds are issued, is excessive, and that bonding a private corporation for seventy-five per cent., and more, of the value of its one property is safe and legitimate, presents a paradoxical view only susceptible of explanation by those familiar with high finance.

Again, we are rapidly approaching the state of public ownership in our cities, and that this consummation may ultimately be reached, we finally will be required to raise the percentage of indebtedness that cities may incur. This, of course, will not be done by the Legislature, in those cities like San Francisco and Los Angeles, where provisions of charters control; but in many of the other cities of our State operating under our general law, we must finally, if those cities desire to acquire their public utilities, increase the percentage of the indebtedness permitted them. Considerations like those that I have just briefly indicated, impel me to sign these bills; but I can not be unmindful of the fact that, at present, we are in a time of stress and depression, and I would not wish by any act of ours now to lessen in any degree or depreciate at all, the bonds that have been or may be issued by the cities of our State.

In not approving these bills, I am but postponing the struggle which must ultimately be had upon this question. I postpone it not because I believe the arguments against the increase in percentage of indebtedness of municipalities to be wholly sound, but because, at this particular time, the necessity for action may not exist, and because of the delicate financial condition in which securities the world over are today. If any particular city wishes to increase the percentage of indebtedness which it may incur, the result may be accomplished by amendment of its charter, and thus postponement until the next session of the Legislature can work no harm to any expending municipality; while action now may, although I do not believe it would, seriously affect many of our cities.

For the reasons, therefore, that I have given, I veto the two bills.

HIRAM W. JOHNSON, Governor.

COMMUNICATION—GIFT OF [illegible].

By consent of the Senate, the following communication was received out of the regular order, read and ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, May 3, 1915.

To the Honorable Members of the Forty-first Session of the Legislature of the State of California:

GENTLEMEN: Herewith I present the usual information report on the Legislative supplies furnished the Legislature for the present session, also comparative tables showing cost and amount of supplies as compared to the sessions of 1909, 1911 and 1913. This report covers the present session up to and including April 30, 1915.

Previous to the session of 1911 no itemized bills for purchases made by the Sergeants-at-Arms of either house of the Legislature were filed in the Controller's office, and a search of the archives in the office of the Secretary of State has resulted in finding only the itemized bills of the Sergeant-at-Arms of the Senate for 1909. The total purchases made by the attaches of the Legislature are not itemized prior to 1911, a search of the journals [illegible] to be made.

Along about 1900 the Sergeant-at-Arms of each house and the Secretary of the Senate acquired the habit of purchasing supplies and stationery for the Legislature that had been previously secured from what was then known as the Janitor's office of the Secretary of State. The high prices paid for such supplies is brought out by reference to the following table, and the prices then were lower than the [illegible] session. These high prices also prevailed on stock furnished from the Janitor's office.

This system of furnishing supplies was checked somewhat by this department in the 1913 session. I addressed a communication to the Sergeant-at-Arms of each house at the beginning of the session, stating that this department was prepared to furnish all stationery and supplies on requisition, without cost to the Legislature.

The following table gives the prices paid by the Sergeants-at-Arms as compared to the prices paid by this department at that time, the difference in many instances exceeding fifty per cent. Our purchases are made on yearly contract, secured after highest competition, and it is needless to say that the saving over retail prices is considerable. The supplies are issued by this department only on requisitions signed by the Secretary of the Senate, Chief Clerk of the Assembly, the Sergeants-at-Arms and the chairmen of the various committees.

	Sergeant-at-Arms	State Bd.
3 dozen 4 oz. ink	$3 62	$1 62
2 dozen 8 oz. paste	8 26	5 50

2 dozen letter tablets	2 50	1 48
6 boxes carbon paper	9 00	3 99
6 dozen pencil erasers	2 75	1 80
4 dozen typewriter erasers	3 60	1 28
6 boxes assorted rubber bands	4 80	4 32

6 box files	2 75	2 25
97 pairs shears	145 50	59 17
3 dozen waste paper baskets	15 00	8 81
5 dozen 5 oz. paste	13 15	8 75
4 balls hemp twine	80	32
3 gross thumb tacks	4 50	2 52
1 journal, 150 pages	80	18
2 Triumph punches	4 50	3 50
13 tin cash boxes	35 75	19 50

The above items, taken from bills presented by the Sergeant-at-Arms during the 1913 session, are only cited as comparative prices and do not show the total purchases.

"Previous to the 1913 session there had never been any record kept that would show the amount, cost or disposition of supplies used by the Legislature. The establishment of such a system by this department was of great value in making up our stationery schedule at the beginning of the present fiscal year. The items used by the Legislature were included and purchased on the regular contracts.

I am glad to state that during the present session this department has had the fullest co-operation of the officers of the Senate and Assembly, and the result will be seen in the final totals.

In 1909, the Senate, through its Secretary and Sergeant-at-Arms, expended for stationery and office supplies, exclusive of the cost of codes, statutes, expressage, postage, binders, etc., $7,645.76. The Assembly for the same session purchased through its Sergeant-at-Arms, supplies to the amount of $5,178.60, making a total of $12,824.36. The same supplies in 1911 cost $7,922.63; in 1913, $4,102.41; and in 1915, $2,896.12.

In 1909, typewriters were rented at the rate of $10 each per month; in 1911, $4.00 per month; in 1913, at the rate of $3.00 per month, and for the present session we are paying $3.00 per month, with no charge for the month of February, making a net rental of $9 for the four months, or at the rate of $2.25 each per month.

In 1909, an electrical firm was paid over $700 by the Legislature for electrical supplies and work that is now furnished by the electrician of this department without charge. In 1911, the electrical supplies cost the Legislature $391.20. In 1913 the only charge of this nature was $2.00 for rent of an electric heater for one of the committee rooms, and this session there has been no expense of this kind charged to the Legislature.

The ice and water service this session has been furnished by this department from our central ice storage plant without cost to the Legislature. In 1909, this service cost the sum of $918.00; in 1911, $734.95, and in 1913, the sum of $766.25. In previous sessions this service has been furnished through the Sergeant-at-Arms.

Two years ago, on the suggestion of State Printer Friend W. Richardson, now State Treasurer, and the Superintendent of this department, the statutes were so amended that the bill filing rooms of each house, which were formerly, when separately conducted, so productive of confusion and unsatisfactory results, were consolidated into one centralized bill filing room for both houses, under the direct management of the State Printer; and the hiring of porters and watchmen for both houses of the Legislature and their management, which had in past sessions of the Legislature produced such unsatisfactory results, was placed under the direction of the Superintendent of Capitol Building and Grounds.

That such change has been successful in increased efficiency and at less cost than heretofore is no doubt apparent to all the members of the Legislature, particularly those who have served in former sessions.

This department is prepared to receipt for the return upon adjournment of the Legislature of any supplies furnished on requisition to committees or members thereof.

Respectively submitted.

GEORGE G. RADCLIFF,
Superintendent Capitol Building and Grounds.

By J. F. MISPLEY, Secretary.

The Legislature of the State of California, at its forty-first regular session commencing on the fourth day of January, 1915, two-thirds of all the members elected to each of the two houses of said Legislature voting therefor, hereby proposes to the people of the State of California that section 7½ of article XI of the Constitution of the State be amended so as to read as follows:

SEC. 7½. [illegible] qualified electors. If required by said clerk, the board of supervisors shall authorize [illegible] ordinance or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors; provided, that if a general election shall occur in said county not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors, said board of freeholders may be elected at such general election. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county officers, to be voted for at general elections. It shall be the duty of said board of freeholders, within one hundred and twenty days after the result of such election shall have been declared by said board of supervisors, to prepare and propose a charter for said county, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the county clerk of said county and the other in the office of the county recorder thereof. Said board of supervisors shall thereupon cause said proposed charter to be published for at least ten times in a daily newspaper of general circulation, printed, published and circulated in said county; *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published for at least three times in a weekly newspaper, of general circulation, printed, published and circulated in such county; *and provided*, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public school in each school district in said county, and the first publication or the posting of such proposed charter shall be made within fifteen days after the filing of a copy thereof, as aforesaid, in the office of the county clerk. The board of supervisors shall cause copies of such charter to be printed in convenient pamphlet form, and shall, until the date fixed for the election upon such charter, advertise in one or more newspapers of general circulation, published in said county, a notice that such copies may be had upon application therefor. If there is no newspaper published within the county, then such notice shall be posted by the county clerk in three public places in said county and on or near the entrance to at least one public school house in each school district within the county. Said proposed charter shall be submitted by said board of supervisors to the qualified electors of said county at a special election held not less than thirty days nor more than sixty days after the completion of such publication, or after such posting; *provided*, that if a general election shall occur in said county not less than thirty days nor more than sixty days after the completion of such publication, or after such posting, then such proposed charter may be so submitted at such general election. If a majority of said qualified electors, voting thereon at such general or special election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or it may be submitted to the Legislature in extraordinary session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such county and shall become the organic law thereof relative to the matters therein provided, and supersede any existing charter framed under the provisions of this section, and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to the matters provided in such charter. A copy of such charter, certified and authenticated by the chairman and clerk of the board of supervisors under the seal of said board and attested by the county clerk of said county, setting forth the submission of such charter to the electors of said county and its ratification by them shall, after the approval of such charter by the Legislature, be made in duplicate, and filed, one in the office of the Secretary of State and the other, after being recorded in the office of the Recorder of said county, shall be filed in the office of the county clerk thereof, and thereafter all courts shall take judicial notice of said charter.

Mr. President and Members of the Senate:

I respectfully call the attention of the Senate to the communication of George G. Radcliff, Superintendent of Capitol Building and Grounds, printed in Tuesday's Journal, May 4th. This communication deserves the careful perusal, not only of the legislators, but of every citizen of California. I sincerely hope that every member of this house will carefully read the report, that due credit will be given to Mr. Radcliff for the economical manner in which he has conducted his department and the assistance rendered the Legislature. This is the first official report of such department's business with the Legislature ever presented in the history of the State and printed in the Journals of each house. It establishes a precedent that undoubtedly will have to be followed in the future and will be of great assistance to officers and members of future legislatures in ascertaining their requirements and the cost of the same.

WHEREAS, By an Act, entitled "An Act to increase the revenue and for other purposes," approved October 22, 1914, congress increased the revenue tax on brandy used in fortification of sweet wines from three cents a proof gallon to fifty-five cents per proof gallon, and according to the official opinion received from the Treasury Department made no provision for nullifying said increase after the end of the year 1915; and

WHEREAS, Such increase of tax and the automatic additional increase to $1.10 per proof gallon after January 1, 1916, will have the effect of practically preventing the use of California grapes for sweet wines in California for all time to come; and

WHEREAS, Such prohibitive taxation not only defeats its own object of acquiring revenue, but deals a crushing blow to the entire vineyard interests of California as evidenced by Bulletin No. 4 just issued by the State Board of Viticultural Commissioners; therefore, be it

Resolved by the Senate and Assembly, jointly, That Congress be requested through California's representatives and senators, and through the State Board of Viticultural Commissioners of this State, to grant such immediate relief by necessary legislation at its next session as will assure the preservation of our viticultural industry, which in California alone represents an investment of $150,000,000.
